

Engineering for a Better World

Contract Announcements

January 19, 2012 through January 10, 2005

Foster Wheeler AG (Nasdaq: FWLT) is a leading engineering and construction contractor and power equipment supplier.

Note: EPC/CM = Engineering, Procurement, Construction/Construction Management
 FEED = Front-End Engineering Design
 PMC = Project Management Consultancy
 E&C = Global Engineering & Construction Group
 Power = Global Power Group
 N/S = Not stated
 LNG = Liquefied Natural Gas
 CFB = Circulating Fluidized-Bed
 BFB = Bubbling Fluidized-Bed
 PC = Pulverized Coal
 ITB = Invitation to Bid

Please be advised that the information in these news releases was accurate as of the date the release was issued (the dateline) but does not reflect any later changes or developments. There is no duty on the part of Foster Wheeler to update the information.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
2012						
1-19-12	4Q2011	E&C	Basic design, front-end engineering design, cost estimates and studies		Oil & Gas	ENNORE, TAMIL NADU, INDIA: Foster Wheeler India Private Limited, part of the Global Engineering and Construction Group, has been awarded a contract for a new LNG receiving terminal. The contract was awarded by India's national oil company, Indian Oil Corporation Limited (IOCL). The facility will be designed to process five million tonnes per annum of LNG. The contract also includes marine studies to enable IOCL to finalize the jetty location, utilities and regasified LNG send-out facilities.
1-18-12	1Q2012	Power	Design & Supply	4Q2013	Power	YANGZHOU JIANGSU PROVINCE, CHINA: A subsidiary of the Global Power Group has been awarded a contract by Yuen Fong Yu Paper Mfg. (Yangzhou) Co. Ltd. for the design and supply of one circulating fluidized-bed (CFB) steam generator for captive use at its industrial paper complex. Foster Wheeler will design and supply the 50 MWe (gross megawatt electric) CFB steam generator plus auxiliary equipment and provide site advisory services for the project. It will be designed to burn coal blended with paper sludge while meeting applicable environmental regulatory requirements.
1-17-12	3Q2011 Heaters (2Q 2011)	E&C	Engineering & procurement services		Refining	BATAAN, PHILIPPINES: A subsidiary of the Global Engineering and Construction Group has been awarded a contract by Petron Corporation for the Petron Refinery Master Plan-2 Project. Foster Wheeler will execute detailed engineering and procurement services for the delayed coker unit (DCU), including the engineering and material supply of two double-fired Terrace Wall™ coker heaters. The DCU will have a design capacity of 37,500 barrels per stream day and is a key part of this significant refinery upgrade. The award also includes the engineering and material supply of two Terrace Wall™ coker heaters.
1-5-12	4Q2011	Power	Design & Supply	Mid-2013	Power	BUDAPEST, HUNGARY: A subsidiary of the Global Power Group has been given a limited notice to proceed (LNTP) by GS Engineering and Construction for the design and supply of two heat recovery steam generators (HRSGs) to Técnicas Reunidas, S.A. (TRSA). The HRSGs will be installed in a combined cycle power plant that TRSA will build near Budapest, Hungary. Foster Wheeler will design, supply and provide advisory services for erection and start-up of two HRSGs, which will be coupled to two Siemens combustion turbines model SGT5-4000F, with a total installed capacity of 860 MWe (gross megawatt electric).

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
1-3-12	4Q2011	Power	Design & Supply	2Q2015	Power	MONG DUONG, VIETNAM: A subsidiary of the Global Power Group has been awarded a contract by Hyundai Engineering and Construction for the design and supply of 4 x 250 MWe (net megawatt electric) circulating fluidized-bed (CFB) steam generators for the Mong Duong 1 Thermal Power Plant for Vietnam Electricity (EVN), the owner and developer of the project. The CFB steam generators will be designed to burn Vietnamese anthracite coal while meeting applicable environmental regulatory requirements.
1-3-12	4Q2011	Power	Design & Supply	4Q2014	Power	DAEGU METROPOLITAN CITY, SOUTH KOREA: A subsidiary of the Global Power Group has been given a limited notice to proceed (LNTP) by GS Engineering and Construction for the design of a circulating fluidized-bed steam generator for the Green Energy Centre BTO (Build, Transfer, Operate) Project of Daegu Metropolitan City, South Korea, the owner and developer of the project. The CFB steam generator will be designed to burn 380/tons day of refuse derived fuel (RDF) while meeting applicable environmental regulatory requirements.
2011						
12-21-11	4Q2011	E&C	EPCm	2013	Oil & Gas	SCOTLAND: A subsidiary of Foster Wheeler's Global Engineering and Construction Group has been awarded an engineering, procurement and construction management contract by BP Exploration Operating Company Limited for BP Exploration's Enhanced Gas Separation Project (EGSP). The project, for which Foster Wheeler has already successfully completed the pre-front-end design (pre-FEED) and FEED, relates to the debottlenecking of the Forties Pipeline Systems crude degasification facilities at BP Exploration's Kinneil terminal to allow it to handle high gas-to-oil ratio unstabilized crude oils and natural gas liquids. (NGLs). The debottlenecking will involve modifications to the existing plant, including improvements to heater and process control systems, as well as new facilities, including crude coolers and a cooling water system.
11-23-11	3Q2011	E&C	Project management	3Q2012	Oil & Gas	OPAL HUB, WYOMING: Foster Wheeler Upstream, part of its Global Engineering and Construction Group, has been awarded a contract by Ryckman Creek Resources, LLC, a subsidiary of Peregrine Midstream Partners, LLC, for project management support for the 35 billion-cubic-foot Ryckman Creek natural gas capacity storage facility. The new gas storage unit will serve the natural gas markets at the Opal Hub in Wyoming.
11-15-11	Bookings will be made as work orders are received	E&C	EPCm, pre-FEED, FEED		Oil & Gas	RAS LAFFAN INDUSTRIAL CITY, QATAR: A subsidiary of Foster Wheeler's Global Engineering & Construction Group and the subsidiary's joint venture partner, Qatar Kentz WLL, have signed an engineering, procurement and construction framework agreement with Qatargas Operating Company Limited. The framework agreement covers projects associated with the existing Qatargas LNG facility at Ras Laffan Industrial City and will include both onshore and offshore work.
11-1-11	2Q2011	Power	20-Year License Agreement		Power	INDIA: A subsidiary of Foster Wheeler AG has entered into a 20-year agreement with Essar Projects India Ltd. (EPIL), a subsidiary of Essar Group, to provide a technology license for utility sized circulating fluidized-bed (CFB) steam generators to be sold in India.
10-26-11		E&C	Memorandum of Understanding		Mining & Metals	CHILE: A subsidiary of Foster Wheeler's Chilean Global Engineering & Construction Group has signed a memorandum of understanding with a unit of GE Energy to explore the pursuit of selected mining and metals projects in South America. Together, GE and Foster Wheeler Chile S.A. would be able to offer innovative solutions to the mining sector, combining equipment and technology from GE Energy, together with technical expertise in mining and metals and the projection execution capability of Foster Wheeler Chile S.A.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
10-26-11	3Q2011	E&C	EPCm	3Q2012	Other	SASOLBURG, SOUTH AFRICA: Foster Wheeler has received an engineering, procurement and construction management (EPCm) services contract from Sasol New Energy Holdings (Proprietary) Limited for the outside battery limit (OBL) portion of a new gas-fired power generation plant. Sasol stated that this project is expected to raise its electricity self-sufficiency to 840 megawatt electric (MWe) or 60% of its overall power draw. Foster Wheeler's scope will include the earthworks for the entire outside battery limit site, an access road; utility connections; 15/88kV step-up transformers and an 88kV substation with associated electrical infrastructure and network system.
10-14-11	2Q2011	Power	Design & Supply		Power	SALAYA, INDIA: Foster Wheeler has been awarded a contract by Essar Projects Limited, a United Arab Emirates (UAE) Company, for the design and supply of four circulating fluidized-bed (CFB) steam generators for the Essar Power Salaya Limited in India, which is the owner and developer of the project. Foster Wheeler will design and supply four 150 MWe CFB steam generators and provide site advisory and commissioning services for the project.
10-4-11	3Q2011	E&C	PMC	4Q2011	Oil & Gas	CAIRO, EGYPT: Foster Wheeler has received a contract from Apache Khalda Corporation for the provision of project management consultancy services to oversee the front-end engineering design (FEED) for the Qasr compression project. The Qasr Compression Project will provide additional compression to the existing facilities at the Qasr gas condensate field and Foster Wheeler will provide expertise and personnel to assist Apache Khalda in the management and administration of the FEED phase of this project.
9-15-11	2Q2011	E&C	EPCm	2Q2012	Chemicals	SASOLBURG, SOUTH AFRICA: Foster Wheeler has been awarded a contract by Sasol Chemical Industries Ltd to provide engineering, procurement and construction management services for the Sasolburg Utilities Expansion Project. The project involves the expansion of the utility systems at the Sasol complex at Sasolburg to support a program of expansion projects. This EPCm award follows Foster Wheeler's successful completion of the front-end engineering design (FEED) phase for this project.
9-13-11	2Q2011	E&C	Basic engineering design	2015	Refining	SOHAR, OMAN: Foster Wheeler, through a collaborative agreement with Honeywell's UOP, was recently awarded a contract by Oman Refineries and Petrochemical Co. (Orpic). UOP/Foster Wheeler will provide a basic engineering design package for a solvent deasphalting (SDA) unit. The unit is a major part of the Sohar Refinery Expansion Project which will significantly increase the refinery's production of petroleum products such as LPG, naphtha, Jet A-1 fuel, gasoline, diesel and propylene. The SDA will be designed to process 2.5 million metric tonnes per annum of vacuum residue of Oman Export Blend crude to produce Deasphalted Oil (DAO) and asphalt for road bitumen production.
9-1-11	1Q2011	E&C	Basic engineering design	3Q2011	Refining	ATYRAU, KAZAKHSTAN: Foster Wheeler awarded a contract for the basic engineering design of a new hydrogen production unit, based on Foster Wheeler Terrace-Wall™ steam reforming technology. Atyrau Refinery is a member of the JS National Company "KazMunayGas" group that is the leading national oil and gas company of Kazakhstan. The main purpose of the project is to increase the oil conversion rate and production of all types of motor fuels to meet Euro IV and Euro V standards.
8-30-11	3Q2011	E&C	Detailed design engineering		Oil & Gas	KARSTO, NORWAY: Foster Wheeler awarded a contract by Aibel AS for the provision of detailed design engineering services to support Aibel, which has been appointed by Statoil as the main engineering, procurement and construction contract for Karsto Development Project (KDP) 2013 for the Karsto and Kollsnes oil and gas processing plants in Norway. The scope of work includes detailed design engineering services for modification to the Karsto plant to enable it to process light oil from the Gudrun offshore oil field and condensate from the Sleipner field and also covers the upgrading of eight compressors, three at Karsto and five at Kollsnes.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
8-24-11	1Q2011	Power	Supply	2Q2012	Power	<p>CORDOBA & BADAJOZ, SPAIN: Foster Wheeler awarded contracts to supply solar steam generator systems to two separate solar projects. The first is with UTE Africa Solar, the EPC contractor for the La Africana Solar Thermal Power Plant located in Fuente Palmera (Cordoba, Spain) to supply steam generating components (feedwater heaters, preheaters, evaporators, superheaters and reheaters) for a single 50 MWe train thermal plant.</p> <p>The second is with UTE Termosolar Olivenza (a joint venture created by Acciona and Seridom), the EPC contractor for the Olivenza Solar Thermal Power Plant, located in Olivenza (Badajoz, Spain) to supply a similar scope as that of the La Africana project. This 50 MWe plant consists of 2 x 25 MWe trains and also utilizes concentrated parabolic trough technology with thermal oil as the heat transfer fluid.</p>
8-23-11	2Q2011	E&C	EPCm		Refining	<p>SOUTH AFRICA: Foster Wheeler has been awarded a contract by Engen Petroleum Limited for engineering, procurement and construction management services for Engen's new multi-products pipeline feeder lines and infrastructure project at Engen's Durban Refinery in South Africa. The objective is to develop the pipeline network from Engen's depots to tie in to the Transnet pipeline in order to enhance Engen's access to key refined product markets in the South African interior.</p>
8-9-11	2Q2011	E&C	PMC, FEED, detailed engineering		Refining	<p>BARRANCABERMEJA, COLOMBIA: Foster Wheeler has been given a release to perform the second phase scope for an existing contract with Ecopetrol S.A. for the Project for Modernization of the Refinery in Barrancabermeja in Colombia. The release also includes project management consultancy and front end engineering design for the crude unit revamps, assisting Ecopetrol in the selection process for engineering, procurement and construction contracts, and control and supervision of the EPC and construction contractors. This upgrade in the refinery will eliminate fuel oil production and increase overall profitability.</p>
8-4-11	2Q2011	E&C	PMC	2Q2012	Pharma	<p>NUSAJAYA, WILAYAH ISKANDAR, MALAYSIA: Foster Wheeler has been awarded a project management consultancy contract for the central utility facilities associated with a new biotechnology park. The contract was awarded by Malaysian Bio-XCell Sdn Bhd ("Bio-XCell"), a joint venture company between Malaysian Biotechnology Corporation Sdn Bhd (Biotech Corp.) and UEM Holdings Bhd., which company owns and is developing the new park. The new 150-acre park is being created as part of an initiative by the Malaysian Government to develop its healthcare and industrial biotechnology facilities. The park features green initiatives such as natural lighting, passive cooling, solar energy and rainwater harvesting. All facilities will be supplied with chilled water and steam from a central utility facility which will also treat all wastewater.</p>
7-13-11	2Q2011	Power	Design & supply	2015	Power	<p>SAMCHEOK, KOREA: Foster Wheeler has been given the full notice to proceed (FNTP) by Hyundai Engineering & Construction for the design and supply of four 550 MWe (gross megawatt electric) supercritical circulating fluidized-bed (CFB) steam generators for the Samcheok Green Power Project for Korea Southern Power Co., Ltd. (KOSPO), the owner and developer of the project. The plant will utilize the world's most advanced CFB steam generator technology, representing a culmination of over 30 years of CFB technology development by Foster Wheeler.</p>
7-7-11	4Q2010	E&C	Engineering design & supply	2Q2011	Refining	<p>LA PLATA, ARGENTINA: Foster Wheeler awarded a contract by YPF.S.A. for the delayed coker heater for the new delayed coking unit at YPF's Complejo Industrial La Plata Argentina. The fired heater is an integral part of the new coker, which uses Foster Wheeler's leading Selective Yield Delayed Coking (SYDECSM) technology. The coker heater incorporates key design features which are pivotal to the excellent performance and reliability delivered by our cokers.</p>

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
7/5/11	1Q2011 (initial release only)	E&C	FEED and project management services		Refining	RIYADH, SAUDI ARABIA: Foster Wheeler SOFCON, an unincorporated consortium between a subsidiary of Foster Wheeler's Engineering & Construction Group and A. Al-Saihati, A. Fattani & O. Al-Othman Consulting Engineering Co. has been awarded a contract by Saudi Arabian Oil Company (Saudi Aramco) for the front-end engineering design and project management services for the Clean Transportation Fuels Project at the Riyadh Refinery, Kingdom of Saudi Arabia.
7/5/11	1Q2011 & 2Q2011	E&C	FEED and basic engineering design	3Q2011	Refining	BARINAS, VENEZUELA: Foster Wheeler awarded a process design and front-end engineering design (FEED) services contract by PDVSA for the new Batalla Santa Ines Refinery Phase I Hydroskimming section to be built in Barinas, Venezuela. Foster Wheeler's scope of work includes the preparation of the basic engineering design package, FEED and early procurement assistance for the crude distillation unit, the naphta hydrotreater, the continuous catalytic reformer and the utilities and offsite facilities.
6/22/11	2Q2011	E&C	Feasibility Study	4Q2011	Oil & Gas	ALBERTA, CANADA: Foster Wheeler awarded a contract by Sasol to perform the technical portion of a feasibility study for a planned gas-to-liquids facility on behalf of the Sasol/Talisman Energy partnership. As well as the technical work on the feasibility study, Foster Wheeler will also develop a cost estimate to allow the partners in the joint venture (Sasol and Talisman Energy) to assess the economic viability of the planned facility.
6/15/11	1Q2011 (BED only)	E&C	Basic Engineering Design & FEED	6/2011 – BED 9/2011 - FEED	Refining	GOTHENBURG, SWEDEN: Foster Wheeler awarded a contract by Preem AB (Publ) Preemraff Lysekil to perform basic engineering design (BED) and front-end engineering design (FEED) for Preem's Energy Savings Program 2013 Turnaround at the Preemraff Lysekil oil refinery. Preem awarded an energy improvement study (EIS) to Foster Wheeler's Business Solutions Group, working with AspenTech, with the aim of improving energy efficiency and reducing emissions in this complex refinery.
5/31/11	2Q2011	Power	Design & supply	2Q2015	Power	SAMCHEOK, KOREA: Foster Wheeler given a limited notice to proceed (LNTP) by Hyundai Engineering & Construction for the design & supply of four 550 MWe supercritical circulating fluidized-bed (CFB) steam generators for the Samcheok Green Power project for Korean Southern Power Co. (KOSPO), the owner and developer of the project. The CFB steam generators will be designed to burn coal mixed with biomass while meeting all environmental regulatory requirements.
5/16/11	2Q2011	Power	Design & supply	4Q2012	Power	JIAXING CITY, CHINA: Foster Wheeler awarded a contract by Zhejiang Jiahua Industrial Park Investment & Development Company for the design and supply of three circulating fluidized-bed steam generators to meet rapidly increasing steam demand at the China Chemical and New Material Park in east China's Jiaxing City, Zhejiang Province. Foster Wheeler will design and supply three 100 MWe CFB steam generators plus auxiliary equipment and provide site advisory services for the project. The CFB steam generators will be designed to burn coal while meeting all environmental requirements.
5/16/11	1Q2011	E&C	FEED	1Q2012	Refining	MAP TA PHUT, THAILAND: Foster Wheeler awarded a contract by Star Petroleum Refining Limited (SPRC) for front-end engineering design for the Residue Fluidized Catalytic Cracking Unit (RFCCU) to improve on-stream reliability together with environmental and performance improvements. Foster Wheeler will carry out the FEED for this major revamp, including licensor selection and will also work with SPRC to evaluate the existing RFCCU maintenance and reliability philosophies with a view to identifying any changes that may be needed in the future to retain the continuous improvement of on-stream performance.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
5/11/11	1Q2011	E&C	Basic engineering design package and EPCm	1Q2013	Refining	SRIRACHA, THAILAND: Foster Wheeler received a contract by Thai Oil Public Company Limited for the basic design engineering package and engineering, procurement and construction management (EPCm) services for the Emission Improvement and PSA-3 project at Thai Oil's refinery. The objectives are to give the refinery a greater flexibility in the crudes it can process, specifically to enable the refinery to process higher sulfur crudes, to upgrade fuel oil to more valuable products and to meeting SOx emissions regulations coming into force in Thailand.
4/14/11	1Q2011	E&C	Pre-FEED	2011	Oil & Gas	HAMMERFEST, NORWAY: Foster Wheeler received a contract from Statoil Petroleum AS for the pre-front-end engineering for the Snøhvit Future Development Project at Statoil's Melkøya-based LNG facility on Melkøya Island. Foster Wheeler's scope will include concept design activities to support finalization of the development concept and the plant capacity for the expansion of LNG production, as well as energy optimization investigations. Foster Wheeler's involvement through this contract will continue through 2011.
4/12/11	1Q2011	E&C	Feasibility Study	3Q2011	Oil & Gas	BAHRAIN: Foster Wheeler received a contract from Bahrain National Gas Company (BANAGAS) to undertake a feasibility study for the modifications and expansion of BANAGAS liquefied petroleum gas facilities. The expansion will allow the plant to increase its gas throughput, which is planned to reach 285 million standard cubic feet per day (MMSCFD) of associated gas and 18 MMSCFD of refinery offgas by 2014.
3/31/11	1Q2011	E&C	FEED		Chemicals	CAOJING, SHANGHAI, PEOPLE'S REPUBLIC OF CHINA: Foster Wheeler received a contract from Huntsman (Europe) BVBA to undertake the front-end engineering design (FEED) for the expansion of Huntsman's Isocyanates Facility. Isocyanates are used in the production of polyurethanes which have a wide range of uses in the plastics industry. It will include front-end engineering, technology licensor management and development of the project schedule and cost estimates. Foster Wheeler has worked with Huntsman on the original development of this facility and will bring this wealth of experience to the planned expansion.
3/28/11	4Q2010	E&C	Engineering and material supply	Mid-2012	Refining	REPUBLIC OF BASHKORTOSTAN, RUSSIA: Foster Wheeler awarded a contract by JSC Novo-Ufimsky Refinery, a subsidiary of Russian oil company Bashneft, for the engineering and material supply of a new Terrace Wall™ steam reformer heater and air preheating system for the Ufa refinery. The steam reformer will be part of the 420 tonnes per day hydrogen production unit being built by JSC Novo-Ufimsky Refinery and will be one of the largest reformers for hydrogen ever built by Foster Wheeler. Foster Wheeler has supplied over 200 Terrace Wall™ steam reformers to the refining and petrochemical industries in more than 40 countries worldwide.
3/22/11	1Q2011	E&C	Detailed design	2Q2011	Oil & Gas	GULF OF MEXICO: Foster Wheeler has been awarded a detail design contract by Enbridge Offshore Facilities, LLC for the deepwater Walker Ridge Gathering System (WRGS) export gas pipelines and the deepwater Big Foot (BGF) export pipeline located in the Walker Ridge area. Upstream remains a high priority for Foster Wheeler and the award of the three deepwater gas and oil pipelines contained in this project confirms our strategy and commitment to the upstream oil and gas sector.
3/9/11	4Q2010	E&C	Engineering design services	1Q2011	Chemicals	PORTLAOISE, IRELAND: Foster Wheeler awarded a contract by Cynar Plc to provide basic engineering design services for 6,000 tonnes per annum (tpa) plant to convert non-recyclable waste plastics into liquid fuels, primarily diesel. Cynar chose Foster Wheeler to assist with their technology development because of the wide-ranging engineering expertise and in particular the oil refining knowledge and capability, and will provide a solution to a significant worldwide issue.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
3/7/11		E&C	Project management, pre-FEED, FEED, engineering and procurement services		Oil & Gas Refining Chemicals	AL –KHOBAR, SAUDI ARABIA: A subsidiary of the Global Engineering and Construction Group together with the subsidiary’s consortium partners comprising A. Al.-Saihati, A. Fattani & Ol-Othman Consulting Engineering Co. (SOFCON) and Saudi Consolidated Engineering Company – Khatib & Alami (SCEC K&A) signed a contract with Saudi Aramco for provision of services associated with Saudi Aramco’s General Engineering Services Plus (GES+) initiative for a duration of five years with options available for extensions. Foster Wheeler and its consortium partners will perform project management services, including pre-front-end engineering services (pre-FEED), front-end engineering design (FEED) and detailed design and procurement services.
3/2/11	4Q2010	E&C	Study		Oil & Gas	ABU DHABI, UAE: Foster Wheeler received a contract from Zakum Development Company (ZADCO), to perform an availability and reliability study in connection with expansion of the Zirku oil processing facilities. The facilities at Zirku Island comprise three oil processing trains and one train on standby-by. ZADCO plans to increase the capacity of this facility to cater for an increased production profile over the next twenty years. Foster Wheeler will conduct site surveys, identify a range of potential expansion options and bottlenecking initiatives, and perform availability and reliability studies to derive a master plan for the facilities and will prepare the basis of design and scope of work for the next phase of the project.
2/14/11	1Q2011	E&C	Front-end engineering	2Q2011	Mining & Metals	EL TENIENTE, CHILE: Foster Wheeler awarded an engineering design contract for a copper concentrator plant in Chile for the Chilean Copper Corporation (CODELCO), the world’s largest copper producing company. The contract is for provision of front-end conceptual engineering including optimization, tradeoffs, 3D model design and a capital expenditure estimate for modifications to the mineral ore feeding system for the SAG-1 and SAG-2 mills, improvement of the molybdenum processing plant, increased production of soluble copper and improvements to the environmental protection at the tailings distribution system.
2/4/11	4Q2010	E&C	Feasibility Study		Chemicals	SASKATCHEWAN, CANADA: Foster Wheeler has been awarded a feasibility study contract by Karnalyte Resources Inc. for the Wynyard Carnallite Potash Project. The study will consider initial production of 500,000 tons per year and expansion of the facility to two million tons per year within five to six years. The Wynyard facility is expected to recover high purity potassium chloride from potash ore deposits. The potassium chloride will be used to produce potash fertilizer. Foster Wheeler will also coordinate preparation of the overall Environmental Impact Statement, which will advance concurrently with the feasibility study.
1/20/11	4Q2010	Power	Design, Supply & Erect	4Q2013	Power	KLADNO, CZECH REPUBLIC: Foster Wheeler awarded a contract by Kraftanlagen Power Plants GmbH (KAP) to design, supply and erect and provide commissioning services for a 135 MWe circulating fluidized-bed (CFB) steam generator with auxiliary equipment, flue gas cleaning, and boiler building for the Alpiq Generating (CZ) s.r.o. Kladno Power Plant. It will be designed to burn a combination of lignite and biomass.
1/13/11	4Q2010	Power	Design and Supply	4Q2012	Power	CANTABRIA, SPAIN: Foster Wheeler awarded contract by Ingesteam Power Plants, S.A. to design, supply and erect a bubbling fluidized-bed (BFB) steam generator and associated auxiliary equipment for Biomasa de Cantabria, a company majority owned by the Armando Álvarez Group, and by Mare (an entity belonging to the Regional Environment Department of the Cantabria Government) with a minor shareholding. The steam generator will burn residual biomass, mainly bark and branches from nearby logging operations. The steam produced will be used for electricity generation.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
1/5/11	4Q2010	Power	Engineering and procurement services	4Q2013/ 2Q2014	Power	BINH THUAN PROVINCE, SOUTH VIETNAM: Foster Wheeler signed a contract with Shanghai Boiler Works, Ltd. for cooperation in the design of two pulverized coal (PC) steam generators for the Vinh Tan II Project for Vietnam Electricity (EVN). Foster Wheeler will provide the design review of the two 622 MWe PC's for Shanghai Boiler Works, Ltd., Foster Wheeler's licensee for PC technology in the region.
2010						
12/21/10	3Q2010	E&C	Engineering services	Mid-2011	Refining	ANTWERP, BELGIUM: Foster Wheeler awarded a contract by Kuwait Petroleum International Lubricants for the provision of detailed engineering services for a brownfield lube oil blending plant. It will be designed to substantially enhance the ability of the Antwerp facility to operate at European scale by increasing the production capacity from 125 million to 250 million liters per year.
12/13/10	4Q2010	E&C	FEED		Refining	MARANHAO & CEARA STATE, BRAZIL: Foster Wheeler awarded a basic engineering design and front-end engineering design contract for two grassroots refineries for Petroleo Brasileiro S.A. (Petrobras). The Premium I Refinery will be a dual train, 600,000 barrels per stream (BPSD) facility in Maranhao State and the Premium II Refinery will be a single-train 300,000 BPSD facility in Ceara State. Foster Wheeler will be the prime subcontractor to Honeywell's UOP, the managing process technology licensor.
11/22/10	4Q2010	E&C	Feasibility Study	4Q2010	Power	SASOLBURG, SOUTH AFRICA: Foster Wheeler received a contract from Sasol New Energy Holdings (Pty) Limited to perform a feasibility study for a gas-fired power generation plant, using gas engines with an open cycle electrical output of approximately 140 MWe. Sasol has stated that this project will raise its electricity self-sufficiency to 840 MWe, or 60% of its overall power draw, and forms part of a broader plant within the Sasol group to reduce its carbon dioxide emissions and bolster self-sufficiency in the light of South Africa's tightening electricity supply/demand balance.
11/15/10	3Q2010	Power	Design and Supply		Power	ABU DHABI, UAE: Foster Wheeler awarded a contract to design and supply a solar steam generator system (preheaters, drum-type evaporators, and superheaters) including interconnecting piping, valves, primary I&C, steel structures, and site advisory services for a plant located in Abu Dhabi, United Arab Emirates. The equipment will be integrated into a solar thermal power plant using concentrated parabolic trough technology and will have an installed power output capacity of 100 MWe (gross megawatt electric).
11/2/10	3Q2010	E&C	PMC		Oil & Gas	MEDAN, NORTH SUMATRA, INDONESIA: Foster Wheeler has been awarded a contract by Perusahaan Gas Negara (PGN), a leading state owned enterprise and public listed company in natural gas business in Indonesia for the provision of a project management consultancy services for a new floating LNG receiving terminal (the "Medan Floating LNG Terminal" facility). Foster Wheeler's scope of work includes technical assistance through the initial phase of the development of the project, conceptual design of the terminal, basic design of the subsea and onshore pipeline as well as the preparation and issue of an invitation to bid for engineering, procurement and construction, EPC bid evaluations, preparation of the EPC contract and support to PGN in EPC contract negotiation.
11/1/10	4Q2008 – 1Q2010	E&C	EPCm		Refining	CENTRAL LONDON, UNITED KINGDOM: Foster Wheeler has been awarded an engineering, procurement and construction management contract by a subsidiary of DP World for the London Gateway Import Facilities at the former Shell Haven refinery in the Thames estuary, 40 kilometers from

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
						Central London. The scope of work comprises new jetty topsides, a control room, a substation, import and export piping and associated modifications.
10/19/10		E&C	PMC		Chemicals	AIN SOKHNA, EGYPT: Foster Wheeler USA has been awarded a project management consultancy contract by Carbon Holdings for a petrochemical complex with a nameplate capacity to produce 1.35 million tons of annum of polyethylene. Foster Wheeler will provide technical support and consulting services to Carbon Holdings through financial close.
10/13/10	4Q2010	Power	Design and Supply		Power	THANH HOA, VIETNAM: Foster Wheeler has been awarded a contract by Japan's Marubeni Corporation for the design and supply of two pulverized coal steam generators for the Nghi Son 1 Project for Vietnam electricity (EVN). Once fully operational, Ngh Son 1 is estimated to generate an average of 3.6 TWh a year and would contribute to the economic development in Thanh Hoa Province and the northern central region of Vietnam.
10/12/10	3Q2010	E&C	Pre-FEED and FEED		Oil & Gas	BOLIVARIAN REPUBLIC OF VENEZUELA: Foster Wheeler awarded a pre-front-end engineering design (pre-FEED) and front-end engineering design (FEED) contract by Cardon IV, S.A., for new production facilities at the Perla field located in the Gulf of Venezuela, Caribbean Sea. Cardon IV is a joint venture company owned by Eni Venezuela B.V. and Repsol YPF Venezuela Gas, S.A. for developing non-associated natural gas exploration and exploitation activities in Cardon IV area.
10/8/10	2Q2010	E&C	Engineering & procurement services		Refining	LA PLATA, ARGENTINA: Foster Wheeler has been awarded a contract by YPF.S.A. for a new delayed coking unit to be built at YPF's Complejo Industrial La Plata. The unit will use Foster Wheeler's leading Selective Yield Delayed Coking (SYDEC SM) technology, will have a capacity of 28,000 barrels per stream day and will produce anode coke to be used in the aluminium industry.
10/7/10	3Q2010	E&C	Feasibility Study	4Q2010	Oil & Gas	Foster Wheeler's Global Engineering and Construction Group has been awarded a contract by the CO ₂ Capture Project (CCP) to undertake a study to evaluate a range of refinery, in-situ extraction of bitumen and natural gas power generation CO ₂ capture scenarios. The CCP is a partnership of seven of the world's major energy companies including BP, Chevron, Eni, Petrobras, Shell, Suncor, ConocoPhillips and associate member EPRI.
9/28/10		E&C			Refining	TULSA, OKLAHOMA: Foster Wheeler's Global Engineering and Construction Group, working with PetroAlgae Inc. has completed its initial testing of PetroAlgae's biomass, with encouraging results. The biomass, produced at PetroAlgae's micro-crop farm in the U.S., is being tested as a delayed coker feedstock supplement to provide renewable biofuels to the market.
9/23/10	2Q2010	E&C	Pre-FEED and FEED		Oil & Gas	KINNEIL TERMINAL, SCOTLAND: Foster Wheeler has been awarded two contracts by BP Exploration Operating Company Limited for its Forties Pipeline System (FPS). The first contract is for the front-end engineering design (FEED) for the Enhanced Gas Separation Project (EGSP). The second contract is for the pre-FEED for the Refrigerated Liquefied Petroleum Gas (RLPG) Chiller Upgrade Project.
9/16/10	3Q2010	Power	20-year License Agreement		Power	INDIA: Agreement between a subsidiary of the Global Power Group and The Saraswati Industrial Syndicate Ltd. to provide an advanced technology license for wall-fired subcritical and supercritical pulverized-coal (PC) steam generators to be sold in India.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
9/15/10		Power	Supply	2010	Power	KREFELD-LINN, GERMANY AND KURIKKA, FINLAND: The Global Power Group is expanding its power boiler services business by establishing two new service centers which supply spare parts, boiler pressure vessel components and boiler modernizations to existing plants in these areas.
9/8/10	1Q2010	E&C	PMC	2011	Chemicals	SAUDI ARABIA: Foster Wheeler has been awarded a contract by Gulf Farabi Petrochemical Company for services for Gulf Farabi's Linear Alkyl Benzene (LAB) plant expansion at Al-Jubail. The new plant will have a production capacity of 100,000 tonnes per annum of LAB which is a basic ingredient in the formulation of synthetic detergents.
8/10/10	3Q2010	Power	Design and supply	2012	Power	BANTEN PROVINCE, INDONESIA: Foster Wheeler has been awarded a contract by Daewoo Engineering Company for the design and supply of two circulating fluidized-bed steam generators for PT Merak Energi. They will be designed to burn local coal using state-of-the-art CFB technology for clean combustion of coal and other fluids.
8/4/10	3Q2010	E&C	FEED		Oil & Gas	KENT, ENGLAND, U.K.: A consortium including Foster Wheeler has received a contract from E.ON UK plc to support front-end engineering design for post-combustion carbon dioxide capture and compression plant as part of E.ON's new supercritical coal-fired power station. It will be designed to capture CO ₂ from flue gas generated by the new coal-fired units enabling it to be transported and stored within a depleted gas reservoir under the North Sea. E.ON is in competition to build the world's first industrial-scale CCS demonstration plants.
8/3/10	4Q2009	E&C	Owner's engineer		Oil & Gas	MONTEVIDEO, URUGUAY: Foster Wheeler awarded an owner's engineer contract for a new LNG receiving terminal (GNL Del Plata facility). It will include technical assistance through the initial phases of the development of the project, conceptual design of the terminal and development of the invitation to bid for the role of owner and operator of the terminal. An initial release of work was booked in Q4 2009; the remainder of the work will be booked as soon as formal release is given by the client.
7/29/10	2Q2010	E&C	Engineering & procurement services	2011	Oil & Gas	DUNKERQUE, FRANCE: Foster Wheeler awarded contract by Gassco AS for the implementation of the blow-down system modification at the Gassco-operated Dunkerque Terminal. This system is used to safely depressurize the process areas of a gas terminal in the event of an emergency.
7/16/10	2Q2010	Power	Design, supply and erect	2013	Power	BIELSKO-BIALA, POLAND: Foster Wheeler awarded a contract by Polimex-Mostostal S.A. for a 50 MWe circulating fluidized bed (CFB) boiler island, which is owned by Poludniowy Koncern Energetyczny (PKE). The steam generator will be designed to burn local Polish bituminous coal. Four CFB steam generators are currently online at existing PKE plants, including a 460 MWe supercritical steam generator at the Lagisza Power Plant in Poland.
7/15/10	2Q2010	E&C	FEED		Oil & Gas	KARSTO, NORWAY: Foster Wheeler entered into a framework agreement for FEED services to support the development of the Karsto oil and gas processing plant. The first FEED call-off contract, awarded in the second quarter of 2010, is for the Gudrun Onshore Modifications project, the objective of which is to enable the Karsto plant to process light oil/condensate production coming on stream in the Norwegian North Sea.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
7/14/10	2Q2010	E&C	PMC	2012	Oil & Gas	UNITED ARAB EMIRATES: Foster Wheeler awarded a contract by Abu Dhabi Company for Onshore Oil Operations (ADCO) for the provision of project management consultancy (PMC) services for the development of the Bida Al Qemzan oilfield. Foster Wheeler will manage the engineering, procurement and construction phase of the Bida Al Qemzan development and assist ADCO with the selection and award of EPC and construction contracts. The project objective is to achieve a production capacity of 20,000 barrels per day.
7/13/10	3Q2010	E&C	PMC	2013	Oil & Gas	SOUTHERN IRAQ: Foster Wheeler awarded a contract by South Oil Company (SOC) for the Crude Oil Export Expansion Project in southern Iraq and offshore in Iraqi waters. The project will include installation of three single point moorings and a central manifold and metering platform. It is expected to boost Iraq's Basra export capacity from 1.8 million bpd per day to 4.5 million bpd by 2014.
7/6/10	2Q2010	E&C	EPCm	2013	Chemical	STADE, GERMANY: Foster Wheeler awarded a contract by Dow Deutschland Anlagengesellschaft mbH for a new cogeneration facility to be installed within Dow's existing chemical complex. The plant consists of three gas turbogenerators, heat recovery steam generators and combined steam turbogenerators, electrical infrastructure, offices, storage and facilities and will have a capacity of 150 megawatt electric.
6/28/10	2Q2010	E&C	Pre-FEED	2011	Oil & Gas	KRIBI, CAMEROON: Foster Wheeler awarded a contract by GDF SUEZ to carry out the pre-front-end engineering design (pre-FEED) for the development of an onshore LNG plant and offshore gas gathering infrastructure. Production capacity of up to 3.5 million tons per annum. Project includes upstream gas gathering system and subsea pipeline tie-ins to offshore production facilities.
6/21/10	1Q10	E&C	Design, supply	2010	Refining	ALIAGA, TURKEY: SOCAR & TURCAS Rafineri A.S., (STRAS) awarded a contract to cover overall front-end engineering design for the new grassroots refinery and the basic design package for the delayed coker, which will use Foster Wheeler's leading SYDEC sm delayed coking technology. The planned new facility will have a capacity of 214,000 barrels per stream day (BPSD).
6/21/10	2Q10	Power	Design, supply	2Q12	Power	WUHAN, CHINA: Sinopec Wuhan Company awarded a contract for the design and supply of three circulating fluidized-bed (CFB) steam generators for the Sinopec Wuhan Cogeneration Plant.
6/15/10	1Q10	Power	Design, supply & provide site advisory services	2011	Power	SAN JOSE DEL VALLE (CADIZ, SPAIN): Contract was awarded by a joint venture created by the Spanish companies SENER and COBRA to design, supply and provide site advisory services for two sets of solar steam generators (preheaters, kettle type evaporators, superheaters and reheaters) as well as low pressure and high pressure feedwater heaters.
6/2/10	2Q10	E&C	Feasibility study and FEED		Refining	NASSIRIYA, IRAQ: The Iraqi Ministry of Oil awarded a feasibility study and front-end engineering design contract for a new grassroots refinery. The proposed refinery will have a capacity of 300,000 barrels per day. FW will develop the configuration of the new refinery to meet the client's processing objectives, evaluate proprietary technologies, prepare a report covering the feasibility of the project and the design basis of the refinery facilities, engage the selected licensors and prepare the FEED package for the total project.
6/1/10	2Q10	E&C	EPCm		Refining	CAMEROON: Société Nationale de Raffinage (SONARA) awarded an engineering, procurement, and construction management services contract for Phase 1 of the Limbé Refinery upgrade and modernization project. FW has already completed the FEED for the entire project. Phase 1 includes the revamp of the existing crude distillation unit, addition of a new vacuum distillation unit, new

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
						catalytic reformer unit, and power generation and associate offsites and utilities facilities.
	1Q10 (Bab) 2Q10 (Qusahwira)	E&C	PMC		Oil & Gas	UNITED ARAB EMIRATES: Abu Dhabi Company for Onshore Oil Operations (ADCO) awarded a project management consultancy (PMC) contract for the Bab Field expansion and the development of Qusahwira Field. FW's primary role as PMC will be to manage the engineering, procurement and construction (EPC) tendering and award process and the EPC execution phase on behalf of ADCO.
4/13/10	4Q09	E&C	FEED modification services and EPCm		Refining	PLOESTI, ROMANIA: PETROM S.A. awarded contracts for investments which form part of its major refinery modernization project at the Petrobrazi Refinery. FW will provide front-end engineering design modification services and engineering, procurement and construction management for the revamp of an atmospheric/vacuum distillation unit at the refinery. In addition, FW was awarded an EPCm contract for a new amine unit and the FEED for the revamp of a delayed coking unit.
4/8/10	1Q10	Power	Design and supply	2011	Power	TURKEY: METKA, S.A., EPC contractor for the project, awarded a contract for the design and supply of two axial deaerating surface condensers for the Samsun Power Plant in Turkey. FW has previously supplied condensers to METKA for five separate projects.
4/7/10	1Q10	Power	Design, supply and erection	2012	Power	POLAND: GDF SUEZ awarded a contract for the design, supply and erection of a 190 MWe (gross megawatt electric) 100% biomass-fired CFB boiler island for the Polaniec Power Station. Once complete, this will be the world's largest biomass boiler burning wood residues and up to 20% agro biomass.
3/16/10	1Q10	E&C	EPCm	2012	Chemicals	SASOLBURG, SOUTH AFRICA: Sasol awarded FW an engineering, procurement and construction management contract for its Fischer-Tropsch Wax Expansion Project. FW completed the front-end engineering design in the fourth quarter of 2009 and has subsequently been assisting Sasol in early EPCm activities.
3/5/10	1Q10	Power	Design and supply	2011	Power	PONFERRADA, SPAIN: Fundación Ciudad de la Energia (CIUDEN) awarded a contract for the design and supply of a 30 MWth CFB unit for testing FW's Flexi-Burn™ carbon capturing CFB technology. The unit will be part of CIUDEN's Integrated Carbon Capture and Sequestration Technology Development Plant located near Endesa's Compostilla power plant.
2/26/10	1Q10	Power	Design and supply	2012	Power	JIANGXI PROVINCE, CHINA: Sinopec Jiujiang Company awarded a contract for the design and supply of two circulating fluidized-bed (CFB) steam generators for the Sinopec Jiujiang Fuel Alteration Project. The two 50 MWe (gross megawatt electric) steam generators will be designed to burn coal and petcoke in a manner that will meet China's increasingly stringent environmental requirements.
2/16/10		E&C	Technical and commercial services		Refining	VIETNAM: Nghi Son Refinery and Petrochemical Limited Liability Company awarded a contract for the provision of technical and commercial services for the planned Nghi Son Refinery and Petrochemicals Complex. Recently, FW successfully completed, on schedule, the front-end engineering design for this new complex, which will be Vietnam's second refinery.
2/9/10	1Q10	Power	Design and supply	2012/2013	Power	VIETNAM: Lilama Corporation, a Vietnamese EPC contractor, awarded a contract for the design and supply of two steam surface condensers and auxiliary equipment for the Vung Ang Thermal Power Plant. The 2 x 600 MWe coal-fired power plant will be located in Ha Tinh Province.
2/8/10	1Q10	E&C	PMC	2013	Oil & Gas	JURONG ISLAND, SINGAPORE: Singapore LNG Corporation Pte Ltd awarded a contract to provide project management consultancy services in support of the development of the LNG terminal, which will have an initial capacity of 3.5 million tonnes per annum, with provisions for expansion to 6 Mtpa.
2/2/10	4Q09	E&C	Feasibility study	2010	Refining	UGANDA: The Government of the Republic of Uganda awarded a contract for a feasibility study for the development of an oil refinery with a capacity of up to 150,000 barrels per day in Uganda. This is

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
						the first oil refinery project in that country.
1/27/10	4Q09	Power	Design and supply	2010	Power	PONFERRADA, LEÓN, SPAIN: ENDESA, the Spanish utility company, awarded a contract to design and supply a low NO _x burner system, which will be integrated in the Compostilla Power Plant, Unit 3 (330 MWe). This is the twelfth low NO _x burner system awarded by ENDESA in recent years.
1/7/10	4Q09	Power	Design, supply and erect	2012	Power	MURCIA, SPAIN: Repsol Petroleo S.A. awarded a contract to design, supply and erect a heat recovery steam generator which, along with auxiliary equipment, will be integrated in a cogeneration plant being built at the Repsol Cartagena refinery. This boiler is the seventh HRSG awarded to FW by Repsol.
2009						
12/15/09	4Q09	E&C	Project Management Consultancy		Refining	COLOMBIA: Refinería de Cartagena S.A. (REFICAR) accepted the offer by a joint venture of FW and Process Consultants, Inc. (a FW company) to serve as its consultant (PMC) for the expansion of the Cartagena refinery in Colombia.
12/14/09	4Q09	Power	Design and supply	2012	Power	QUANG NINH PROVINCE, VIETNAM: Wuhan Kaidi Electric Power Co., Ltd. awarded a contract for the design and supply of two 220 MWe (gross megawatt electric) CFB steam generators for Vietnam National Coal-Mineral Industries Group's Mao Khe thermal power plant project .
12/10/09		E&C	Memorandum of Understanding for engineering services		Refining	A memorandum of understanding has been signed between the Global E&C Group and PetroAlgae for engineering services to be performed in conjunction with PetroAlgae's micro-crop biomass technology, which allows for the production of dry biomass at a very large scale. The two firms will intend to create end-to-end market solutions for the large-scale production of green gasoline, diesel, jet fuel and specialty chemicals.
12/10/09	3Q09	Power	Two design and supply contracts		Power	SAUDI ARABIA: Tecnicas Reunidas Power awarded two design and supply contracts, one for two heat recovery steam generators and the other for two package-type steam generators, which will be installed at the Manifa Cogeneration and main Substations Project by Tecnicas Reunidas for Saudi Aramco.
12/3/09	3Q09	E&C	Consultancy	2010	Other	ALBANIA: The United Nations Development Program awarded a consultancy contract to conduct environmental impact assessments of ten high-priority contaminated areas in Albania.
11/17/09	2Q09	E&C	EPCm and Commissioning	2011	Pharma	GÖDÖLLÖ, HUNGARY: Kedrion Group and its Hungarian-controlled Human Bioplazma LLC. awarded a contract for engineering, procurement, construction management and commissioning/qualification supervision for the upgrading and expansion of a bulk plasma fractionation manufacturing facility.
11/16/09	4Q09	E&C	FEED	2010	Oil & Gas	AUSTRALIA: Woodside awarded a front-end engineering design contract for Train 2 and Train 3 of the Pluto liquefied natural gas (LNG) project. The contract also includes an option for early EPCm services.
10/13/09	3Q09	E&C	Process design	2011	Other	SAUDI ARABIA: SETE Energy Saudia for Industrial Projects Ltd. awarded a contract for the expansion of an industrial wastewater treatment plant.
9/8/09	3Q09	Power	Design, supply and erection	2012	Power	KONIN, POLAND: ZE Pak S.A. awarded a contract for the design, supply and erection of a 55 MWe biomass-fired CFB boiler island for the Konin Power Station. The steam generator will be designed to

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
						burn wood biomass and up to 20% agro biomass.
8/21/09	2Q09	E&C	Detailed design		Chemicals	NORTH AMERICA: A confidential client awarded a detailed design contract for a chemicals project in the United States.
7/29/09	2Q09	E&C	EPC; concept development and pre-engineering	2010 (Zeebrugge)	Oil & Gas	ZEEBRUGGE, BELGIUM and DUNKERQUE, FRANCE: Gassco AS awarded an engineering, procurement and construction contract for the implementation of the blow-down system modification at Gassco's Zeebrugge Terminal, Belgium, and the concept development and pre-engineering of the blow-down system at its Dunkerque Terminal in France following its successful completion of the study phase.
7/23/09	2Q09	E&C	FEED	2010	Oil & Gas	QUEENSLAND, AUSTRALIA: Santos Ltd. awarded a front-end engineering design (FEED) contract for its GLNG® Upstream Project. The FEED is for the extraction, collection, compression and transportation of coal-seam gas to the transmission pipeline, and associated infrastructure and services, including power generation and water treatment facilities.
6/17/09	2Q09	E&C	Pre-FEED		Oil & Gas	KENT, ENGLAND: E.ON UK plc awarded a technical services agreement to FW and its consortium partner to perform the pre-front-end-engineering design (pre-FEED) for a post-combustion carbon dioxide (CO ₂) capture plant proposed as part of E.ON's new supercritical coal-fired power station.
5/29/09	1Q09	E&C	Engineering consultancy services		Other	ROTTERDAM, THE NETHERLANDS: The Rotterdam Climate Initiative (RCI) awarded a contract for the provision of engineering consultancy services related to RCI's planned carbon capture, storage and utilization solution.
5/27/09	2Q09	E&C	Supply		Refining	KAOHSIUNG, TAIWAN: CTCI awarded contracts for the supply of a carbon monoxide boiler for CPC Corporation's new residue fluidized catalytic cracker (RFCC) at CPC's Talin refinery. Scope includes a proprietary FW-designed incinerator to destroy carbon monoxide in the waste gas stream from the RFCC, a boiler section to recover heat from the resulting flue gas, and a selective catalytic reduction flue gas treating system to minimize emissions of nitrogen oxides to the atmosphere.
5/5/09	1Q09	Power	Design and supply	2010	Power	SEVILLE, SPAIN: SENER-AMSA JV awarded a contract to design and supply the steam generating equipment for the new Gemasolar Project tower-type concentrated solar power plant and also the feedwater heater equipment contract for the facility.
4/1/09	Contract value will be booked upon approval of Indian Government	Power	20-Year License Agreement		Power	INDIA: FW has entered into a 20-year agreement with BGR Boilers Limited to provide an advanced technology license for wall-fired subcritical and supercritical pulverized-coal steam generators to be sold in India. In addition, the companies have agreed to cooperate on multiple prospective projects under separate contracts within the next five years, with FW providing the engineering and design along with selected major components.
3/18/09	1Q09	E&C	FEED	2009/2010	Oil & Gas	NORWEGIAN SEA: StatoilHydro ASA awarded a contract to undertake the front-end engineering design for the carbon dioxide/amine project at the Åsgard B offshore production facilities in the Norwegian Sea.
3/17/09	1Q09	E&C	EPCm		Refining	WHITING, INDIANA, USA: BP Products North America Inc. awarded the full Engineering, Procurement and Construction Management services contract for the Coker Pillar Project at its Whiting refinery. This award is an increase in role for FW through the addition of the Construction Management services beyond the engineering, procurement and fabrication work currently being

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
						executed by FW for this project.
3/11/09	1Q09	E&C	EPC and managing PMC		Refining	PARADIP, ORISSA STATE, INDIA: Indian Oil Corporation Limited awarded an EPC and Managing PMC contract for a grassroots refinery in India. In the role of Managing Project Management Consultant, FW will undertake the major part of the development of the new 15 million tones per annum refinery and will also execute the engineering, procurement and construction management for 15 of the key refinery process units, plus offsites, utilities and infrastructure. The EPCm scope includes the crude distillation units, reforming, alkylation and butane isomerization units, plus significant offsites, utilities and infrastructure. The booking is in excess of four million man-hours.
3/3/09	Bookings will be made as work orders are received	E&C	Feasibility, FEED and design services		Upstream oil & gas, midstream and chemicals	SOUTH AFRICA: Sasol Technology (Pty) Limited awarded a framework contract that covers all of the sectors in which Sasol is active, including upstream oil and gas, chemicals, gas-to-liquids, coal-to-liquids and coal-to-chemicals. Feasibility study, front-end engineering and design services will be provided as requested by Sasol.
2/20/09	4Q08	E&C	Basic design package	2009	Refining	LA PLATA, ARGENTINA: YPF, S.A. awarded a contract to provide the basic design package for the new fractionation unit and gas plant for the new delayed coking unit at the La Plata Refinery.
2/19/09	1Q09	E&C	Basic engineering		Oil & Gas	IRAQ: South Oil Company awarded a contract for the basic engineering of new offshore oil export facilities to supplement the existing Al-Basra terminal.
2/19/09	1Q09	E&C	FEED and technical services	2014	Other	SOUTH KOREA: Doosan Heavy Industries & Construction Co., Ltd. awarded a contract for the FEED and technical services for a new gasification island, based on Shell technology.
2/18/09	1Q09	E&C	Design and supply		Chemicals	SALTEND, UK: BP Chemicals Ltd. awarded a contract for the design and supply of a Terrace-Wall™ steam reforming furnace, which will replace the existing reformer at BP's chemicals complex at Saltend.
1/30/09	4Q08	Power	Design, supply, erect and startup supervision	2010	Power	PORTUGAL: UTE IBERESE-SOMAGUE awarded a contract for the design, supply and erection of a heat recovery steam generator (HRSG) at the SINES Refinery, and also startup supervision of the HRSG, which will be coupled to a Siemens SGT-800 combustion turbine, with a total installed ISO rating of 47 MWe (gross megawatt electric).
1/21/09	Bookings will be made as work orders are received	E&C	Alliance		Refining	STANLOW, UK: Shell UK Oil Products Limited awarded a two-year extension of its existing alliance contract for the provision of basic design, engineering, procurement and construction management services at Shell's Stanlow Manufacturing Complex, UK.
2008						
12/18/08	3Q08	E&C	EPCM	2011	Chemicals	BANCHANG, THAILAND: MTP HPPO Manufacturing Company Limited, a joint venture between The Dow Chemical Company and Siam Cement Group, awarded engineering, procurement and construction management contracts for a new chemicals facility near Map Ta Phut, Thailand.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
12/18/08	4Q08	Power	Design and supply		Power	PASCAGOULA, MISSISSIPPI: Contract awarded by Chevron Products Company for the design and supply of two 20 MW shop-assembled steam generators to be located at its Pascagoula refinery.
11/4/08	4Q08	E&C	FEED	2009	Chemicals	SOUTH AFRICA: FEED contract awarded by Sasol Chemical Industries Limited for the Sasolburg Fischer-Tropsch Wax Expansion project.
11/4/08	3Q08	Power	Design and supply	2011	Power	KAOSHIUNG, TAIWAN: Contract awarded by Yuen Foong Yu Paper Manufacturing Co., Ltd (YFY) for the design and supply of a 50 MWe (gross megawatt electric) CFB steam generator to be located at its Chiutang Mill. This is the third CFB order awarded to FW by YFY.
10/30/08	4Q08	E&C	Study/FEED/project management services		Refining	MELLITA, LIBYA: Contract awarded by Zwara Oil Refinery Company Limited (ZORCO) for consultancy and project management services for a planned new 200,000 barrels per stream day crude oil refinery. The planned new facility has an estimated total investment cost of \$4 billion. Note; only the study and FEED portions of the award have been booked in Q4 2008. The remainder of Foster Wheeler's project scope will not be booked until the project receives approval by ZORCO to proceed into the EPC phase.
10/27/08	4Q08	E&C	Feasibility study		Oil & Gas	NINGXIA HUI AUTONOMOUS REGION, PEOPLE'S REPUBLIC OF CHINA: Sasol Synfuels International (Proprietary) Limited and Shenhua Ningxia Coal Industry Group Company Ltd. awarded to FW and its consortium partner contracts to perform a feasibility study for an 80,000 barrels per day coal-to-liquids plant.
10/13/08	4Q08	E&C	FEED		Oil & Gas	SOUTHERN SAHARA, ALGERIA: BP Exploration (El Djazair) Limited on behalf of the In Salah Gas Joint Venture for the Southern Fields Development Project awarded a FEED contract under which Foster Wheeler will update the basis of design, develop the technical data, specifications and requisitions and provide a detailed cost estimate in order to define the engineering, procurement and construction (EPC) scope of work.
9/18 /08	3Q08	E&C	EPC	2009	Chemicals	SASOLBURG, SOUTH AFRICA: Senmin International (Pty) Ltd. awarded an engineering, procurement and construction contract for a new facility to produce carbon disulfide and recover sulfur from hydrogen sulfide.
9/4/08	3Q08 (Future royalty payments will be recorded over life of the agreement.)	Power	License Agreement		Power	SOUTH KOREA: Foster Wheeler has entered into a 15-year license agreement with Bumwoo ENG Co. Ltd. to provide an advanced technology license for wall-fired subcritical and supercritical pulverized-coal steam generators to be sold in South Korea.
8/21/08	2Q08	E&C	Engineering, procurement, fabrication		Refining	INDIANA, U.S.A.: BP Products North America awarded contracts for the engineering, procurement and fabrication of a 102,000 barrels-per-stream-day six-drum delayed coking unit and gas plant facilities at its Whiting refinery.
8/11/08	3Q08	E&C	Engineering and architectural		Pharma	TUAS, SINGAPORE: Contract awarded by Alcon Laboratories Inc. to provide engineering and architectural services for the conceptual and basic design of its new 250,000 square foot manufacturing

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
			services			facility to be located in the Tuas Biomedical Park.
8/5/08	3Q08	Power	Design and supply	2012	Power	SANTA CRUZ PROVINCE, ARGENTINA: Contract awarded by Isolux Ingenieria S.A. y Tecna Proyectos y Operaciones, S.A., (UTE), a Spanish consortium, for the design and supply of two CFB steam generators for the Rio Turbio Power Project.
7/31/08	3Q08	E&C	PMC		Power	MALAGA, SPAIN: Project management consultancy contract awarded by Gas Natural for a new 400 megawatt combined-cycle power plant.
7/31/08	2Q08	E&C	Engineer and supply	2009	Refining	REPUBLIC OF TATARSTAN, RUSSIAN FEDERATION: Contract awarded by Open Joint-Stock Company "TANECO", a unit of Russian oil company Tatneft, for the supply of fired heaters for the Nizhnekamsk integrated refinery and petrochemicals complex. Foster Wheeler will engineer and supply the materials for two furnaces for the hydrocracking unit, and a charge heater and three interheaters for the continuous catalytic reformer unit
7/31/08	3Q08	Power	Design and supply	2010	Power	GUNSAN CITY, REPUBLIC OF KOREA: Contract awarded by Hanwha Engineering & Construction Corporation for the design and supply of two CFB steam generators to be located in the Gunjang National Industrial Complex.
7/30/08	4Q07	Power	Design and supply		Power	WISE COUNTY, VIRGINIA: Contract awarded by Shaw Group subsidiary for the design and supply of two CFB steam generators, which will be part of the new Dominion Virginia City Hybrid Energy Center. The 585 MWe energy center will have the capability to use a wide range of coal qualities, including waste coal, and up to 20 percent biomass.
7/29/08	3Q08	Power	Supply and erect	2010	Power	NORRKOPING, SWEDEN: Contract awarded by E.ON Varmer Sverige AB, Sweden for a waste-fuel-fired CFB boiler island to be located at the combined head and power plant in Norrkoping. FW will supply the 84 thermal megawatt CFB boiler and auxiliary equipment and will carry out the erection and commissioning of the boiler island.
7/28/08	3Q08	E&C	Pre-FEED and FEED	2009	Refining	VIETNAM: Contract awarded by Nghi Son Refinery & Petrochemical Limited Liability Company for the planned Nghi Son Refinery. FW will execute the pre-FEED followed by the FEED for this new complex, which will include a 20 million tonnes per annum refinery and a petrochemical complex.
7/24/08	2Q08	Power	Design and supply	2010	Power	OOSTROZEBEKE, BELGIUM: Contract awarded by Prokon Nord Energiesysteme GmbH for a 26 MWe (gross megawatt electric) CFB steam generator. The electricity produced by the new biomass-fired CFB will be sold to the local grid.
7/22/08	2Q08	E&C	EPCm	2010	Refining	NORTHERN GREECE: Contracts awarded by HELLENIC PETROLEUM S.A. for the engineering, procurement and construction management for a refinery upgrading project at one of the company's refineries at Thessaloniki in northern Greece.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
6/27/08	1Q & 2Q 2008	Power	Design and supply Design, supply and erection Design, supply and erection	2008 2009	Power Power Power	SETUBAL, PORTUGAL: Contract awarded by MECI-Somagugue for the design and supply of two heat recovery steam generators (HRSGs) to be coupled with General Electric's LM-2500 combustion turbines in a cogeneration power plant that MECI-Somagugue will build at the Portucel SoporceL manufacturing complex. ROTTERDAM, NETHERLANDS: Contract awarded by Abener Inabensa Paisas Bajos, S.A. for the design and supply of an HRSG and auxiliary equipment as well as erection and commissioning advisory services. The HRSG will be integrated in a bio-ethanol plant to be built at the Rotterdam Europoort. HUELVA, SPAIN: Contract awarded by CEPESA for the design, supply and erection of an HRSG and auxiliary equipment, which will be integrated in a cogeneration plant to be built at the Labida Refinery.
6/24/08	2Q 2008	E&C	Services		Refining	MARI-EL, RUSSIAN FEDERATION: Services contract awarded by Mariisky NPZ Ltd. for the planned expansion of the Mari-El refinery.
6/23/08	2Q 2008	E&C	Design and estimating services	2008 (1 st phase)	Refining	SZÁZHALOMBATTA, HUNGARY: Contract awarded by MOL Hungarian Oil & Gas Co. to provide basic design and estimating services for the revamp and expansion of the delayed coker complex at MOL's refinery in Hungary.
6/17/08	1Q08	E&C	FEED, part of	2008	Oil & Gas	SWINOUJSCIE, POLAND: Contract awarded by SNC-Lavalin Services Limited for part of the front-end engineering design of a new LNG regasification terminal to be owned by Polskie LNG SP. z.o.o.
5/28/08	1Q 2008	E&C	Engineering and materials supply		Oil & Gas	WESTERN AUSTRALIA: Contract awarded by Woodside for two gas turbine exhaust waste heat recovery units for the processing train at its Pluto liquefied natural gas (LNG) project.
5/6/08	2Q 2008	Power	Design, supply and erect	2009	Power	VARKAUS, FINLAND: Contract awarded by NSE Biofuels Oy Ltd. for a CFB biomass gasifier for a biomass-to-liquids (BTL) pilot plant.
5/6/08	1Q 2008	E&C	Engineering and materials supply		Oil & Gas	THAILAND: Contract awarded by Samsung Engineering Co. Ltd. for design and supply of two gas turbine exhaust waste heat recovery units for PTT Public Co., Ltd.'s ethane separation plant at Map Ta Phut Industrial Complex.
4/16/08	2Q 2008	E&C	Pre-FEED		Oil & Gas	QUEENSLAND, AUSTRALIA: Santos Ltd. awarded a contract to undertake a six-month study for the pre-FEED for Santos' planned Gladstone LNG TM (GLNG TM) project. This facility would be one of the first LNG facilities in the world to use coal-bed methane as a feedstock for LNG production.
4/16/08	1Q 2008	E&C	Pre-FEED		Oil & Gas	BAHRAIN: Contract awarded by the Bahrain National Gas Company to carry out the pre-FEED for the revamp and expansion of the BANAGAS liquefied petroleum gas facilities. The expansion will allow the plant to increase its gas throughput, which is planned to reach 530 million standard cubic feet per day by 2020.
4/8/08	4Q 2007	E&C	EPCm		Chemicals	FELUY, BELGIUM: Contract awarded by INEOS Feluy SPRL for the engineering, procurement and construction phase of the expansion of INEOS' existing polyalphaolefins plant.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
4/1/08	1Q 2008	E&C	Pre-feasibility study		Oil & Gas	SOUTH AFRICA: Pre-feasibility study for a proposed new coal-to-liquids (CTL) facility was awarded by Sasol Technology (Pty) Ltd. The planned stand-alone greenfield CTL facility would produce approximately 80,000 barrels per day of synthetic fuel.
3/31/08	1Q 2008	GPG	Design and Supply	2012	Power	MONTZ, LOUISIANA: Contract awarded by Entergy Louisiana, LLC for the design and supply of two CFB steam generators. The CFBs and associated auxiliary equipment will be a part of the Little Gypsy 3 Repowering Project. Unit 3, which will be designed to deliver a baseload of 538 MWe (net megawatt electric output), will have the capability of using petroleum coke, a plentiful and inexpensive refining byproduct, as well as coal to produce electricity.
3/19/08	1Q 2008	E&C	Engineering, procurement and construction management		Refining	SARDINIA, ITALY: Contract awarded by Saras S.p.A. for the engineering, procurement and construction management for the revamp of the mild hydrocracking unit at the Sarroch refinery. This project is part of an important refinery upgrade.
3/14/08	1Q 2008 4Q 2007	E&C E&C	Detailed engineering, procurement services and construction management; Design and supply		Refining	CARTAGENA, SPAIN: Contract awarded by REPSOL YPF for the detailed engineering, procurement services and construction management of a new delayed coker complex at its refinery at Cartagena, which will use FW's SYDEC ^(SM) technology. A separate contract was previously awarded for the design and supply of the coker fired heaters which are an integral part of the coker unit.
3/11/08	1Q 2008	E&C	Feasibility Study		Oil & Gas	NORWEGIAN SEA: Contract awarded by StatoilHydro ASA to undertake a feasibility study associated with carbon dioxide (CO ₂)/amine absorption at the Åsgard B offshore production facilities. The overall objective is to obtain maximum absorption of CO ₂ at Åsgard B in order to reduce future downstream CO ₂ removal demand and increase the volume of natural gas liquids exports.
2/12/08	1Q 2008	Power	Design and Supply		Power	NOVOCHERKASSK, RUSSIA: Contract awarded by PJSC EnergoMashinostroitelny Alliance for a 330 MWe gross megawatt electric) advanced CFB steam generator. This is the first CFB to be built in Russia and the second CFB ordered in the world which utilizes advanced supercritical once-through (OTU) steam technology.
2/7/08	4Q 2007	E&C	EPC		Oil & Gas	KOMATIPOORT, SOUTH AFRICA: EPC contract awarded by Republic of Mozambique Pipeline Investments Company (Pty) Ltd. (ROMPCO) to upgrade the capacity of the natural gas pipeline which runs from the Temane gas field in Mozambique to Secunda in South Africa. The capacity expansion primarily involves the installation of a new compressor station, including two new gas-turbine-driven compressor units and ancillary equipment to increase the pipeline gas flow rate. The existing pressure protection system at Secunda will also be upgraded to accommodate the increased gas flows.
1/31/08	4Q 2007	E&C	PMC	2011	Refining	KHABAROVSK, RUSSIA: Project management consultancy contract awarded by OJSC "Khabarovsk Oil Processing Refinery" for a new hydroprocessing complex at its Khabarovsk refinery. The new complex comprises a hydrocracker, hydrotreater, hydrogen unit, amine regeneration unit, sour water stripper and sulfur recovery unit. The hydrogen plant is based on FW's proprietary TERRACE-

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
						WALL™ steam methane reforming technology.
1/21/08	4Q 2007	Power	Design	2010	Power	CAM PHA, VIETNAM: Contract awarded by Harbin Power Engineering Company, Ltd. for the design of two 150 MWe (gross megawatt electric) CFB steam generators for the second phase of the Cam Pha Power Plant Project. The boilers are designed to burn waste anthracite and slurry.
1/17/08	4Q 2007	Power	Design, Supply and Erect	2009	Power	BILBAO, SPAIN: Contract awarded by SENER, Ingeniería y Sistemas, S.A. for PETRONOR for a heat recovery steam generator (HRSG) that will be integrated in a cogeneration plant being constructed at the Petronor Refineria de Somorrostro. FW will design supply and erect the HRSG and also provide start-up supervision for the HRSG, which will be coupled to a General Electric PG-6581 combustion turbine, with a total installed capacity of 42 MWe (gross megawatt electric).
1/10/08	4Q 2007	Power	Engineering and Supply	2009	Power	FUJIAN PROVINCE, PRC: Contract awarded by SINOCHEM Quanzhou Petrochemical Co. Ltd for the engineering and supply of two 75 MWe (gross megawatt electric) CFB steam generators. The CFB project is part of a major residue processing project.
1/10/08	4Q 2007	Power	Supply	2010	Power	MEJILLONES, CHILE: Contract awarded by UTE CT Mejillones for a 165 MWe (gross megawatt electric) CFB boiler island to be located at the Andino power plant. This is the second unit to be awarded to Foster Wheeler at that plant.
2007						
12/19/07	4Q 2007	E&C	EPCm	2010	Oil & Gas	WESTERN AUSTRALIA: Contract awarded to FW-led joint venture by Woodside Burrup Pty Ltd for the engineering, procurement, and construction management for the onshore portion of Woodside's Pluto LNG Project.
11/27/07	4Q 2007	E&C	Detailed Engineering	2010	Power	MEJILLONES, CHILE: Contract awarded by UTE CT Mejillones for a lump-sum detailed engineering contract for a new power facility at the Andino power plant. The detailed engineering will include a 165 MWe (gross megawatt electric) CFB boiler and a steam turbine. FW's Global Power Group has been awarded a design and supply contract for the CFB boiler island.
11/15/07	Bookings will be made as work packages are released by NTR.	E&C	Engineering		Refining	BAKERSFIELD, CALIFORNIA, USA: NTR Acquisition Co. and FW have signed an agreement for FW to perform initial engineering work on planned projects at Kern Oil & Refining Co., pending the closing of NTR's acquisition of Kern. NTR anticipates the acquisition of Kern closing in the first quarter of 2008.
11/15/07	4Q 2007	Power	Design and Supply	2010	Power	PLOIESTI, ROMANIA: Contract awarded by LUKOIL Energy & Gas Romania s.r.l for a 70 MWe (gross megawatt electric) CFB steam generator for the new combined heat and power plant to be located in LUKOIL's oil refinery. The plant will be designed to burn petcoke and up to 20% heavy fuel oil.
10/8/07	3Q 2007 (FEED);	E&C	FEED and Project Management and Construction Management	2011	Chemicals	MESAIEED, QATAR: Contracts awarded by Qatar Intermediate Industries Holding Co. Ltd. to execute the FEED and project management and construction management services for a new grassroots petrochemical complex. The new complex will include world-scale olefins and aromatics units, which will supply ethylene, propylene and benzene to the downstream polypropylene, ethylbenzene, styrene

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
			Services			monomer and polystyrene facilities and will also include ethylene-to-propylene conversion units. Note: only the FEED portion of the award was booked in Q3 2007. The remainder of Foster Wheeler's project scope will not be booked until the project receives approval by the client to proceed into the EPC phase.
10/2/07	3Q 2007	E&C	Engineering, Procurement and Construction, plus Project Co-ordination and Services		Chemicals	SINGAPORE: Contracts awarded by ExxonMobil Asia Pacific Pte. Ltd. for project co-ordination and services and the engineering, procurement and construction (EPC) of a number of downstream units and associated plant infrastructure for a second petrochemical complex in Singapore. The FW-led joint venture will engineer, procure and construct the modification and expansion of ExxonMobil's existing aromatics and oxo-alcohol production facilities, and expansion and modification of the existing product storage and utilities, among others.
9/25/07	3Q 2007	Power	Design and Supply	2010	Power	CZESTOCHOWA, POLAND: Contract awarded by Fortum Heat Polska sp. z .o. o for the design and supply of a 66 gross megawatt electric CFB steam generator and auxiliary equipment. FW will also carry out the erection and commissioning of the boiler island. The planned power plant will burn coal and up to 25% biomass.
9/21/07		Power	Engineering Services, Technical Specifications and Design Review	2009	Power	SPAIN: Agreement with the Fundación Ciudad de la Energía (CIUDEN) for the technological development of an oxycombustion process and carbon dioxide capture solution for a coal-fired demonstration facility. In the initial phase, engineering services and technical services and review of CIUDEN's conceptual and basic design for the combustion island will be provided. The combustion island will incorporate both PC and CFB technology.
9/18/07	2Q 2007	Power	Boiler Design and Supply, plus Technical Advisory Services for Erection and Commissioning of Boiler Island	2010	Power	MEJILLONES, CHILE: Contract awarded by UTE CT Mejillones for a 165 gross megawatt electric CFB boiler island to be located at the Andino power plant. FW will supply the CFB steam generator, auxiliary equipment and erection and commissioning technical advisory services of the boiler island, which will be designed to burn imported bituminous coal and/or petroleum coke, as well as providing the option to burn small amounts of biomass-type fuels.
9/17/07		Power	Develop and Supply		Power	A multi-year alliance agreement was signed with Praxair, Inc. calling for the joint pursuit of certain demonstration projects that will incorporate clean coal technologies and integrated oxy-coal combustion systems into coal-fired electric generating plants to facilitate capture and sequestration of carbon dioxide. Under the agreement, FW will develop and supply steam generators using oxy-coal combustion technology that can be installed in new or existing coal-fired power plants.
9/5/07	1Q 2007 (Engineering & procurement services); 3Q 2007 (Construction management & commissioning)	E&C	Engineering, Procurement, Construction Management and Commissioning Services		Pharma	SINGAPORE: Contract awarded by GlaxoSmithKline Biologicals for a new biotechnology production facility. The state-of-the-art facility includes two production buildings, a quality control and administration building, and a utilities building in Tuas Biomedical Park.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
	services)					
8/30/07	2Q 2007	E&C	Design, Material Supply, Construction and Erection	2009	Refining	HUELVA, SPAIN: Contract awarded by Compañía Española de Petroleos, S.A. (CEPSA) for the design, material supply, construction, and erection of a new crude heater, a new vacuum heater and a combustion air preheater system for the La Rábida refinery.
8/23/07	3Q 2007	Power	Design, Supply and Erect, plus Start-up Supervision	2008	Power	CASTELLÓN, SPAIN: Contract awarded by BP Oil Refinería de Castellón, S.A. for the design, supply and erection of a heat recovery steam generator (HRSG) for BP's oil refinery. Start-up supervision for the HRSG will also be provided.
8/14/07	2Q 2007	E&C	Feasibility and Optimization Study	2008	Power	Contract awarded by the Electric Power Research Institute (EPRI) for a feasibility and optimization study covering the "Engineering and economic assessment of Integrated Gasification Combined Cycle (IGCC) coal power plants for near-term deployment." The work is being performed as part of EPRI's Coal Fleet for Tomorrow Program.
8/7/07	3Q 2007	E&C	Engineering, Procurement, and Construction Management		Refining	SOMORROSTRO, SPAIN: Contract awarded by Petróleos del Norte, S.A. (Petronor) for the engineering, procurement and construction management of a delayed coking complex at its refinery in Spain. The coking complex will be comprised of a 36,000 barrels per stream day delayed coker, which will use FW's leading SYDEC SM delayed coking technology, plus coke handling and storage facilities and a gas concentration unit.
8/7/07	1Q 2007 & 2Q 2007	E&C	Engineering, Procurement, and Construction Supervision Services		Refining	NORTHERN ITALY: Contract awarded by Italiana Energia e Servizi S.p.A. (IES) for the engineering, procurement and construction supervision services for a modernization project at IES' Mantua refinery. The modernization aims to produce automotive diesel complying with European Union ultra-low-sulfur specifications and reduce refinery emissions to the environment.
8/7/07	3Q 2007	E&C	Feasibility Study		Power	NORTHERN EUROPE: Contract awarded by C.GEN N.V. for a feasibility study for a 400 gross megawatt electric coal-fired integrated gasification combined-cycle plant.
8/6/07	2Q 2007	E&C	FEED and Program Management Services	2011	Oil & Gas	KHURSANIYAH, KINGDOM OF SAUDI ARABIA: Contract awarded by Saudi Aramco for a FEED and program management services contract for the Karan onshore gas processing facilities.
8/6/07	3Q 2007	Power	Design and Supply	2010	Power	JYVÄSKYLA, FINLAND: Contract awarded by Jyväskylän Energia Oy to design and supply a 200 gross megawatt CFB steam generator to be built as part of a greenfield power plant project. The planned power plant will be a combined heat and power plant fueled by milled peat and biomass (mostly logging chips).
8/1/07	3Q 2007	Power	Engineering and Supply	2009	Power	GUANGDONG PROVINCE, PRC: Full notice to proceed awarded by SINOPEC Maoming Company on the engineering and supply of two 100 gross megawatt electric CFB steam generators. In total, SINOPEC has purchased 21 CFBs from Foster Wheeler in the past 11 years.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
7/18/07	2Q 2007	Power	Design and Supply	2009	Power	SODERTALJE, SWEDEN: Contract awarded by Soderenergi AB for a 240 megawatt thermal CFB boiler island to be located at the Igelsta combined heat and power plant. The boiler will be designed to burn biomass, demolition wood and refuse-extracted fuels.
7/18/07		E&C	Alliance		Refining	STANLOW, UK: Shell UK Oil Products Limited awarded a two-year extension of the existing alliance contract for the provision of basic design, engineering, procurement and construction management services at its Stanlow Manufacturing Complex. The tenth anniversary of FW's alliance relationship with Shell recently took place.
5/24/07	4Q 2006	E&C	Process Design Package		Refining	JUBAIL INDUSTRIAL CITY, KINGDOM OF SAUDI ARABIA: Contract awarded by Aramco Services Company and Total France for a process design package for a new delayed coker. The delayed coker is part of the Jubail Export Refinery, a grassroots full-conversion refinery designed to process Arabian heavy crude.
5/8/07	2Q 2007	Power	Design and Supply	2010	Power	LAPPEENRANTA, FINLAND: Contract awarded by Kaukaan Voima Oy Helsinki for a 385 MWth CFB boiler island. The new biomass power plant will supply process steam and electricity adjacent UPM-Kymmene Corporation's pulp and paper mill, as well as district heat and electricity to Lappeenrannan Energia.
4/25/07	2Q 2007	Power	Construction Management Services and Reimbursable Craft Labor	2009	Power	ARIZONA, USA: Contract awarded by Salt River Project Agricultural Improvement and Power District (SRP) for construction management services and reimbursable craft labor to erect a 400 megawatt PC steam generator at the Springerville Generating Station. Foster Wheeler was previously awarded a contract in 2006 to supply the PC boiler to SRP for this project.
4/16/07	4Q 2006	E&C	Engineering, Procurement Assistance and Construction Management Services	2009	Power	SICILY: Contract awarded by ERG Raffinerie Mediterranee (ERG MED) for engineering, procurement assistance and construction management services for the expansion of the integrated gasification combined cycle complex at ERG MED's Priolo refinery.
4/10/07	2Q 2007	Power	Design and Supply	2009	Power	THAILAND: Contracts awarded by Doosan Heavy Industries & Construction Co., Ltd. for the design and supply of a CFB steam generator for the Glow CFB3 thermal power project in Thailand.
4/10/07	4Q 2006	E&C	Design, Engineering, Procurement, and Material Supply		Refining	DAYA BAY, GUANGDONG PROVINCE, PEOPLE'S REPUBLIC OF CHINA: Contract awarded by CNOOC Oil & Petrochemicals Co., Ltd. (COPC) for the thermal design, engineering, procurement, and material supply of two delayed coker heaters to be installed in a new four-drum delayed coking unit, which will be part of the new COPC Huizhou refinery. The delayed coker heaters, which use FW's proprietary Terrace-Wall TM design, are an integral part of the company's SYDEC SM process technology.
3/22/07	1Q 2007	Power	Design & supply	2010	Power	MISSOURI, USA.: Contract awarded by City Utilities of Springfield for the design and supply of a natural circulation pulverized-coal (PC) steam generator to be constructed at City Utilities' existing Southwest Power Station in Springfield, Missouri. The 300 MWe (gross megawatt electric) PC steam generator will be designed to fire low-sulfur Powder River Basin coal. To burn this fuel as cleanly and

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
						efficiently as possible, the unit will be equipped with Foster Wheeler's advanced low-NOx (nitrogen oxides) burner system. In addition, Foster Wheeler's selective catalytic reduction technology will be installed to reduce NOx emissions at the stack, and a flue gas scrubber will be used for sulfur dioxide reduction.
3/13/07	1Q 2007	E&C	License and Basic Engineering Package		Refining	GUJARAT, INDIA: Contract to provide a license and basic engineering package for a new delayed coker, based on Foster Wheeler's Selective Yield Delayed Coking (SYDEC SM) process, which forms part of Indian Oil's residue upgrading project at its Gujarat refinery.
3/8/07	1Q 2007	Power	Design and Supply	2009	Power	YEOSO AREA, SOUTH KOREA: Contract awarded by Hanwha Chemical Corporation for the design and supply of three CFB steam generators for a chemical facility.
3/5/07	1Q 2007	E&C	Detailed Engineering	2009	Refining	HUELVA, SPAIN: Contract awarded by Compañía Española de Petróleos, S.A. (CEPSA) for the detailed engineering of new crude, vacuum and gas recovery units at La Rábida Refinery.
3/1/07	1Q 2007	Power	Design and Supply	2011	Power	MONONGALIA COUNTY, WEST VIRGINIA: Full notice to proceed was received on FW's contract from Longview Power, LLC for the design and supply of a supercritical once-through pulverized-coal steam generator for Longview's coal-fired generating facility. The Longview plant will be one of the largest private investments in the history of West Virginia.
2/28/07	3Q 2006	E&C	FEED		Oil & Gas	NIGERIA: Contract from Nigeria LNG Limited awarded to FW-led joint venture for Project Specification, or front-end engineering design, for the <i>SevenPlus</i> project, which involves the construction of two new natural gas liquefaction trains, each producing 8.5 million metric tonnes of LNG per annum, at NLNG'S Bonny Island LNG complex. Upon completion, these will be the world's largest LNG trains.
2/28/07	4Q 2006	Power	Engineering and Materials Supply	Mid-2008	Refining	THAILAND: Contract awarded for engineering and materials supply for a Terrace-Wall TM reformer and three fired heaters by the CTCI Corporation for the Bangchak Petroleum Public Co., Ltd.'s Product Quality Improvement Program at its Bangchak refinery.
2/15/07	1Q 2007	E&C	FEED/PMC		Chemicals	YANBU, KINGDOM OF SAUDI ARABIA: Contract awarded by Osos Petrochemicals Company for front-end engineering design and project management consultancy services for planned new petrochemicals complex to produce polybutylene terephthalate.
1/30/07	1Q 2007 Limited Notice to Proceed	Power	Design and Supply	2011	Power	MONONGALIA COUNTY, WEST VIRGINIA: Contract awarded by Longview Power, LLC for design and supply of a 695 (net) megawatt electric supercritical once-through pulverized-coal steam generator for Longview's coal-fired generating facility.
1/25/07	1Q 2007	E&C	Services	Mid-2008	Refining	ORISSA STATE, INDIA: Indian Oil Corporation Limited (IOCL) awarded services contracts to two FW subsidiaries for the Paradip Refinery Project, which is expected to be one of the largest integrated refinery petrochemicals complexes in India.
1/24/07	1Q 2007	E&C	Basic Design Engineering		Refining	MALAYSIA: Awarded basic design and engineering package and EPC contract by Malaysian Refining Company Sdn. Bhd., a PETRONAS and ConocoPhillips joint venture, for a

			Package/EPC			debottlenecking/revamp project at MRC's PSR-2 Melaka Refinery.
1/24/07	4Q 2006	E&C	Engineering /PMC		Oil & Gas	SONGO SONGO ISLAND, TANZANIA: Awarded an engineering and project management consultancy contract by Globeleq for expansion of a gas processing facility.
1/9/07	4Q 2006	E&C	EPC/CM	2008	Refining	IZMIT, TURKEY: Awarded an engineering, procurement and construction management services contract by Turkish Petroleum Refineries Corporation (TUPRAŞ) for the Gasoline Specification Improvement Project at the Izmit Refinery.
2006						
12/18/06	3Q 2006	Power	Design and Supply	2008	Power	ACAMPAMENTO MACEDO, NIQUELANDIA CITY, BRAZIL: Awarded a contract by Votorantim Metais Niquel S.A. to design and supply a CFB boiler island. FW scope includes design and supply of a petroleum coke-fired 150 MW thermal CFB boiler, auxiliary equipment, instrumentation and a burner management and boiler protection system, boiler house steel construction, and advisory services for erection and commissioning.
12/11/06	3Q 2006	E&C	FEED and PMC		Oil & Gas	RAYONG, THAILAND: Awarded a FEED and PMC contract by PTT Public Company Ltd. for its sixth gas separation plant, GSP6.
12/7/06	3Q 2006	E&C	PMC	2008	Oil & Gas	SAINT JOHN, NEW BRUNSWICK, CANADA: Awarded a PMC contract by Canaport™ LNG Limited Partnership (partnership of Repsol YPF, S.A. and Irving Oil Limited) for an LNG regasification terminal.
11/6/06	3Q 2006	E&C	Lump-sum FEED and early procurement services		Refining	HUELVA, SPAIN: Awarded a lump-sum contract by Compañía Española de Petróleos, S.A. (CEPSA) for the FEED and early procurement services for new crude, vacuum and gas concentration units at La Rábida Refinery.
11/6/06	3Q 2006	Power	Design	Mid-2009	Power	CAM PHA, VIETNAM: Awarded a design contract by Harbin Power Engineering Company, Ltd. for two 545 tons per hour sub-critical CFB steam generators for the Cam Pha Power Plant Power Project.
11/6/06	3Q 2006	E&C	EPC	2007	Power	PIETRAMONTECORVINO, ITALY: Awarded an EPC contract by Voreas S.r.l. for a new 48 MW wind farm, which will be comprised of 24 state-of-the-art wind turbine generators.
10/31/06	3Q 2006	E&C	Design engineering		Oil & Gas	NIGERIA: Authorized by Chevron Nigeria Limited, operator of the joint venture partnership with the Nigerian National Petroleum Corporation, to undertake design engineering for Tubu and Madu offshore oilfield developments in Nigeria's Oil Mining Leases, OML 52 and OML 85. FW, in a joint venture with National Engineering & Technical Company Limited (NETCO), will evaluate the economics of the planned development and will also investigate possible configurations for the surface facilities.
10/31/06	4Q 2006	E&C	FEED/Project management consultancy	2007	Oil & Gas	MANIFA/KHURSANIYAH, SAUDI ARABIA: Awarded a FEED and project management services contract by Saudi Aramco for the Manifa Arabian Heavy Crude Program. The project also includes the expansion of the Khursaniyah Gas Plant.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
10/24/06	3Q 2006	Power	Design and Supply	2008	Power	TIANJIN CITY, PRC: Awarded contracts to design and supply three 100 MWe CFB boilers for SINOPEC Tianjin Company's ethylene complex. In the last ten years, SINOPEC has purchased a total of 19 CFB boilers from FW.
10/3/06	3Q 2006	E&C	FEED	2010	Oil & Gas	UNITED ARAB EMIRATES: Awarded FEED by the Abu Dhabi Company for Onshore Oil Operations (ADCO) for the Sahil, Asab and Shah oilfield development project.
9/28/06	3Q 2006	E&C	Process Design Package		Refining & Chemicals	TATARSTAN, RUSSIAN FEDERATION: Awarded a contract by CJSC Nizhnekamsk Refinery to provide a process design package for Foster Wheeler's Selective Yield Delayed Coking (SYDEC SM) process. Coker will be part of a new integrated refining and petrochemical grassroots complex to be constructed at Nizhnekamsk.
9/21/06	3Q 2006 (Value of initial license fee only. Future royalty payments will be recorded over life of agreement)	Power	15-Year Licensing Agreement	2021	Power	KOREA: Entered into a fifteen-year agreement with Doosan Heavy Industries & Construction Co., Ltd. ("Doosan") to provide a technology license for subcritical pressure circulating fluidized-bed (CFB) steam generator projects in Korea, the Indian subcontinent and certain other regions. The agreement also contemplates Foster Wheeler collaborating with Doosan on certain engineering, procurement, and construction opportunities.
9/20/2006	3Q 2006	E&C	Lump-Sum Turnkey EPC		Oil & Gas	KHURAIS: SAUDI ARABIA: A joint venture led by Foster Wheeler, with Korea's Hyundai Engineering and Construction Co., Ltd., has been awarded a contract by Saudi Aramco for the Khurais Gas Facility, part of the Khurais Central Processing Facility in the Kingdom of Saudi Arabia. The Khurais Gas Facility will be designed to process the sour associated gas produced from the three oilfields into a natural gas liquid product and a dry, single-phase sour shipping gas. The plant will process a total of 563 million standard cubic feet per day of sour associated gas and 70,000 b/d of hydrocarbon condensate.
9/19/06	2Q 2006	E&C	Study		Oil & Gas	WESTERN AUSTRALIA: Engaged by Woodside Energy Ltd. to undertake a study for an LNG development that will process gas from the Browse gas fields, off the coast of Western Australia. Foster Wheeler, together with WorleyParsons Services Pty Ltd, its joint venture partner, is leading this study to evaluate the technical considerations for an offshore LNG facility.
9/19/06	3Q 2006	E&C	FEED	2008/2010 (Phased completion of Complex)	Refining	NIZHNEKAMSK, REPUBLIC OF TATARSTAN, RUSSIAN FEDERATION: Awarded FEED by CJSC Nizhnekamsk Refinery for a new complex of refining and petrochemical plants. This award has been made within the framework of an existing project management consultancy (PMC) contract awarded to Foster Wheeler France by CJSC Nizhnekamsk Refinery in 2005. The Complex consists of an oil refinery, a deep conversion plant and a petrochemical plant. The expected total investment cost of the Complex will be in excess of three billion US dollars.
9/18/06	3Q 2006 (Value of	Power	15-Year Licensing Agreement	2021	Power	CHINA: Foster Wheeler has entered into a fifteen-year agreement with Wuxi Huaguang Boiler Co., Ltd. ("Wuxi") to provide a technology license for subcritical pressure circulating fluidized-bed (CFB)

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
	initial license fee only. Future royalty payments will be recorded over life of agreement.)					steam generators to be sold in China. The agreement also contemplates Foster Wheeler utilizing Wuxi as a major supplier for projects located outside of China.
9/13/06	2Q 2006	E&C	Reimbursable EPC	2008	Chemicals	<p>JURONG ISLAND, SINGAPORE: Awarded a reimbursable EPC contract by Lucite International Singapore Pte. Ltd. (LISPL) for a new methyl methacrylate (MMA) manufacturing facility.</p> <p>Foster Wheeler has already completed the basic engineering design for this 120,000 tonnes per annum plant. The new plant will use Lucite International UK Limited's proprietary state-of-the-art Alpha technology. This is the first in a series of Alpha-based facilities planned by Lucite International.</p>
9/13/06	2Q 2006	E&C	Thermal design, Engineering, Procurement & Material Supply	N/S	Refining	<p>CASTELLÓN, SPAIN: Awarded a contract by BP Oil Refineria de Castellón, S.A. (BP) for the thermal design, engineering, procurement and material supply of a 43.5 megawatt double-fired TERRACE-WALL™ delayed coker heater for a new delayed coker to be built at BP's Castellón Refinery. The Foster Wheeler TERRACE-WALL™ delayed coker heater is an integral component of the Foster Wheeler Selective Yield Delayed Coking (SYDEC^(SM)) process technology, which was selected by BP for the new coker.</p>
9/13/06	2Q 2006	E&C	Engineering, Procurement & Construction Supervision	2008	Refining	<p>CASTELLÓN, SPAIN: Awarded a detailed engineering, procurement and construction supervision contract by BP Oil Refineria de Castellón, S.A. (BP) for a new delayed coker at BP's Castellón Refinery. The 20,000 barrels per stream day coker will use Foster Wheeler's Selective Yield Delayed Coking (SYDEC^(SM)) technology. This award follows the completion of the process design package by Foster Wheeler's coking center of excellence in Houston, and the front-end engineering design, which was undertaken by the company's Madrid operation.</p>
9/13/06	3Q 2006	Power	Turnkey Design, Supply & Erect	January 2008	Power	<p>ALKMAAR, NETHERLANDS: Awarded a turnkey contract to design, supply and erect a circulating fluidized-bed (CFB) boiler island for NV Huisvuilcentrale Noord-Holland's new biomass power station to be built at its existing waste incineration plant. The contract includes the design and supply of the 71 MWth CFB boiler, auxiliary equipment, feedwater system, instrumentation and control system, boiler house steel construction, plus erection and commissioning services. The boiler will be fueled by demolition wood.</p>
9/11/06	2Q 2006	E&C	Reimbursable EPC	2009	Refining	<p>TULSA, OKLAHOMA, USA: Contract awarded by Sinclair Oil Corporation for a 30,000 barrel per stream day (bpsd) delayed coker, gas plant and coke handling facilities at its Tulsa refinery. The new coker will use Foster Wheeler's Selective Yield Delayed Coking (SYDEC^(SM)) process, which will allow the refinery to process heavier crudes while maximizing the production of higher value products.</p>
8/31/06	1Q 2006	E&C	Technology Consultancy	N/S	Chemicals	<p>DAHEJ, GUJARAT, INDIA: Contract award by Oil and Natural Gas Corporation Limited (ONGC) to provide technology consultancy services for a planned new petrochemicals complex. Services include supporting ONGC in selection and appointment of technology licensors and of an EPC contractor for the ethylene unit.</p>

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
8/30/06	3Q 2006	E&C	Feasibility Studies	2006	Refining	RUWAIS, UAE: Awarded detailed feasibility studies by Abu Dhabi Oil Refining Company (TAKREER) for a grassroots refinery and for a new visbeaker unit at the existing Ruwais refinery.
8/27/06	3Q 2006	E&C	FEED	N/S	Oil & Gas	WESTERN AUSTRALIA: Foster Wheeler-led joint venture selected by Woodside Energy Ltd. to undertake the FEED for Woodside's planned Pluto LNG development.
8/7/06	2Q & 3Q 2006	E&C	Early phase of FEED	N/S	Chemicals	SINGAPORE: Authorized by ExxonMobil Asia Pacific Pte. Ltd. to proceed with early phase of FEED for certain downstream units and associated plant infrastructure of the Singapore Parallel Train (SPT) project, a potential new world-scale steam-cracking complex at ExxonMobil's Singapore refining and chemical plant site.
8/3/06	2Q 2006	E&C	FEED	2006	Oil & Gas	OLOKOLA, NIGERIA: Foster Wheeler JV awarded the FEED by Chevron Nigeria Limited for the non-associated gas wellhead platforms and pipelines portion of Chevron's Olokola Gas Supply Project.
8/3/06	3Q 2006	E&C	EPCM	N/S	Chemicals & Refining	JURONG ISLAND, SINGAPORE: Foster Wheeler was instructed by Shell Eastern Petroleum (Pte.) Ltd. to proceed with the initial EPCM for a world-scale ethylene oxide/mono-ethylene glycol plant and a significant refinery modification project in Singapore.
7/26/06	2Q 2006	Power	Design & Supply	2008	Power	DEVNYA, BULGARIA: Foster Wheeler awarded a contract by Deven JSCo, a subsidiary of Solvay Sodi, for a 400 tons per hour CFB boiler island for industrial power station.
7/26/06	2Q 2006	E&C	Engineering & Procurement Services	N/S	Oil & Gas	NORWEGIAN NORTH SEA: Foster Wheeler awarded a contract by Vetco Aibel AS to provide engineering and procurement services for modifications to extend the life of existing platforms in the Greater Ekofisk area in the Norwegian North Sea for ConocoPhillips. Foster Wheeler will carry out FEED, detailed engineering, management and administration and supply chain management.
7/20/06	2Q 2006	E&C	Process Design Package & Procurement	N/S	Refining	ROSEMOUNT, MINNESOTA, USA: Foster Wheeler awarded contract by Flint Hills Resources to produce the process design package for the replacement of the coker island at the Pine Bend Refinery. The process design will be for new larger coke drums, a new coker structure and a new blowdown system, and the procurement of long-lead items.
7/20/06	4Q 2005	Power	Design & Supply	2008	Power	SÃO LUIS, BRAZIL: Design and supply of two coal-fired CFB boiler islands by Abalco S.A. for the Alumar alumina refinery. The scope covers design and supply of two 280 tonnes per hour CFB boiler islands, including the fuel silos, boiler auxiliaries, ash handling systems, instrumentation, steel structures, and supervision of erection and commissioning.
6/29/06	2Q 2006	Power	Technology License	2021	Power	CHINA & INTERNATIONAL: Foster Wheeler entered into a contract with Shanghai Boiler Works, Ltd., a unit of Shanghai Electric Corporation, to provide an advanced technology license for arch-fired subcritical and supercritical steam generators.
6/26/06	2Q 2006	E&C	Thermal Design, Engineering, Procurement & Material Supply	N/S	Refining	JAMNAGAR, GUJARAT STATE, INDIA: Foster Wheeler awarded contract by Bechtel France for the thermal design, engineering, procurement and material supply of four TERRACE-WALL™ delayed coker heaters for a new eight-drum delayed coking unit to be installed as part of the Jamnagar Export Refinery Project at the Reliance Petroleum Limited refinery.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
6/26/06	2Q 2006	E&C	Process Design & Detailed Engineering	2008	Refining	JAMNAGAR, GUJARAT STATE, INDIA: Foster Wheeler awarded contract by Bechtel France for a new eight-drum delayed coking unit to be installed as part of the Jamnagar Export Refinery Project at the Reliance Petroleum Limited refinery.
6/14/06	2Q 2006	Power	Design & Supply	2009	Power	ARIZONA, USA: Awarded design and supply contract for a 400 megawatt (MWe) PC boiler by Salt River Project Agricultural Improvement and Power District (SRP), for the Springerville Generating Station in Arizona. The unit will be owned by SRP and operated by Tucson Electric.
6/9/06	2Q 2006	Power	Design & Supply	2009	Power	ROCKDALE, TEXAS, USA: Foster Wheeler awarded contract by Bechtel Power Corporation for the design and supply of two 315 MWe CFB boilers for a new solid-fuel power plant that Bechtel Power is designing and constructing for TXU Corp. at TXU's Sandow Steam Electric Station.
6/8/06	2Q 2006	E&C	Basic Design, FEED, Engineering Design, Detailed Design & Procurement Services	N/S	Refining	MAZEIKIAI, LITHUANIA: Award of contract for the revamp of the Mazeikiai refinery in Lithuania, the only refinery in the Baltic States. The revamp forms part of a comprehensive modernization program which will enable the refinery to meet future European Union fuel quality specifications. The revamp includes a vacuum unit, vacuum gasoil hydrotreater, diesel/kerosene hydrodesulfurization unit, fluid cracking unit, amine and sulfur recovery unit and all related utilities.
5/31/06	1Q 2006	E&C	Engineering & Procurement	N/S	Refining	SARDINIA, ITALY: Contract award by Saras S.p.A. for new process units at the Sarroch refinery. Scope includes a new hydrodesulfurization unit and two new independent tail gas treatment units.
5/17/06	1Q 2006	E&C	Basic Engineering Design & Technical Services	2006	Chemical	ULSAN, SOUTH KOREA: Contract awarded by INVISTA Textiles (UK) Limited for basic engineering design and technical services for a 40,000 metric tonnes per annum butanediol plant for SK Corporation. Foster Wheeler is also working with INVISTA on two PTA plants in China and one in Thailand, each being built for different owners.
4/17/06	1Q 2006	Power	Supply & Upgrade	2007	Power	COMPOSTILLA, SPAIN: Authorization to proceed received from Endesa, Spain's largest utility, for the supply of new low-NO _x burners and to upgrade the mill classifiers on Units 4 and 5 at Endesa's power plant.
4/4/06	1Q 2006	Power	Supply & Install	N/S	Power	ABONO, SPAIN: Contract awarded by Hidroeléctrica del Cantábrico (HC) to supply and install new low-NO _x burners and to upgrade the mill classifiers on Unit #1 at the Abono power plant. These modifications will permit HC to meet European Union emission regulations.
3/29/06	4Q 2005	E&C	Management and Engineering Services	N/S	Refining	KHABAROVSK, RUSSIA: Contract awarded by OJSC "Oil Company Alliance" (Alliance) to provide management and engineering services for a hydroprocessing project at the Khabarovsk refinery. Foster Wheeler will consolidate five licensed process design packages, including the Foster Wheeler-designed hydrogen production facility, and FEEDs carried out by other companies, into an invitation to bid package suitable for international EPC contractor bidding. Foster Wheeler will also carry out the EPC technical bid evaluation and support Alliance in selecting the EPC contractor.
3/14/06	1Q 2006	Power	Design, Supply, Erection &	2007	Power	TORNIO, FINLAND: Contract awarded for the design, supply and erection of a peat- and biomass-fired circulating fluidized-bed (CFB) boiler island by Tornion Voima Oy, a subsidiary of Etela-

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
			Commissioning			Pohjanmaan Voima Oy. Includes a 131 thermal megawatt CFB boiler and auxiliary equipment, including a feed water system, flue gas cleaning system and the boiler house and Foster Wheeler will carry out the erection and commissioning of the boiler island.
3/13/06	1Q 2006	E&C	EPCM	2008	Chemical	SHUAIBA INDUSTRIAL AREA, KUWAIT: Contract awarded by The Kuwait Olefins Company (K.S.C.C.) for the EPCM of a grassroots, world-scale ethylene-glycol unit (EG2 Project).
3/9/06	1Q 2006	Power	Supply	2007	Power	SHANDONG PROVINCE, PEOPLE'S REPUBLIC OF CHINA: Contract awarded by a unit of the China National Petrochemical Corporation (SINOPEC) to supply two 75 MWe circulating fluidized-bed boilers.
3/7/06	4Q 2005	E&C	FEED	2006	Oil Refining	ELEFSINA, GREECE: Contract awarded by Hellenic Petroleum S.A. (HELPE) for the FEED for the upgrade of the Elefsina refinery. Scope includes selection of technology licensors for certain new process units and coordination of the licensors during FEED phase. A complete process design package will be provided and Foster Wheeler will also carry out basic engineering, preparation of studies for the necessary permits, early procurement, and preparation of the ITB package for the EPC phase.
2/14/06	1Q 2006	E&C	EPC	2008	Chemical & Refining	RABIGH, SAUDI ARABIA: EPC contract awarded by Rabigh Refining and Petrochemical Company (PETRORabigh) for the utilities and offsites of PETRORabigh's world-scale, integrated refining and petrochemical complex. Scope includes detailed design, procurement and management of the construction contractors for: utilities and offsite facilities, including all interconnecting process and utility piping for the complex; flare, water, air and power systems; instrumentation and control rooms; main electrical distribution substations, firewater systems, blending and metering; and refurbishment and change in duty of existing tankage and roads.
2/14/06	1Q 2006	Power	Engineering & Supply	2007	Power	GUANGZHOU CITY, GUANGDONG PROVINCE, PRC: Contract for engineering and supply of two 120 MW circulating fluidized-bed steam generators was awarded by Guangzhou Petroleum Company, a subsidiary of China Petroleum & Chemical Corporation (SINOPEC), for its refinery in Guangzhou City.
2/8/06	1Q 2006	Power	Design & Supply	2009	Power	LOUISIANA, USA: Contract awarded by a subsidiary of The Shaw Group Inc., for the design and supply of two 330 MW CFB boilers to be used at Cleco Power LLC's proposed solid-fuel generating unit planned at its existing Rodemacher Power Station. Scope also includes selective non-catalytic reduction systems and air quality control systems.
1/23/06	4Q 2005	Power	Upgrade	N/S	Power	LA CORUNA, SPAIN: Authorization to proceed by Endesa, Spain's largest utility, with an upgrade of the second of four steam generating units at Endesa's AS Pontes power plant. The four boilers were originally supplied by Foster Wheeler.
1/17/06	4Q 2005	E&C	Project Management Services for EPC Phase	2008	Oil and Gas	ABU DHABI, UAE: Contract awarded by Abu Dhabi Gas Industries Ltd. (GASCO) to provide management services for the EPC phase of GASCO's Habshan Gas Complex Expansion. GASCO is one of the largest gas processing companies in the world. Foster Wheeler was previously awarded a contract to provide management services for the FEED and EPC contractor selection phases of this project.
1/11/06	4Q & 3Q 2005	Power	Design, Supply &	2009	Power	LAGISZA, POLAND: Full Notice to Proceed received from Poludniowy Koncern Energetyczny

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
			Erection			(PKE), one of Poland's largest electricity utilities, for the design, supply and erection of the CFB boiler island for a new 460 MWe power plant. The boiler island represents a double world-first: the world's largest CFB boiler and worlds' first supercritical CFB unit.
1/10/06	2005	E&C	Basic Design Engineering Package	2009	Chemicals	JURONG ISLAND AND PULAU BUKOM, SINGAPORE: Contracts awarded by Shell Eastern Petroleum (Pte) Ltd. for two basic design engineering packages (BDEP) associated with a world-scale ethylene oxide/mono-ethylene (EO/EG) glycol plant on Jurong Island and significant modifications at Pulau Bukom Refinery. Shell intends to rollover from the BDEP phase to the implementation phase with the appointment of Foster Wheeler as the EPCM contractor for the EO/MEG plant and a significant part of the refinery modifications later in 2006 when the final investment decision will be taken.
1/4/06	N/S	E&C	Project Coordination & Services	N/S	Chemicals	SINGAPORE: Contract awarded by ExxonMobil Asia Pacific Pte. Ltd. to Foster Wheeler JV for project coordination and services for a potential new project at ExxonMobil's Singapore Chemical Plant site. The JV would also undertake the FEED and the potential EPC of some facilities if the project proceeds to the next stage.
1/3/06	4Q 2005	Power	EPC	2007	Power	PASADENA, TEXAS: EPC contract awarded by AES Deepwater, Inc. to supply and install state-of-the-art combustion and selective catalytic reduction (SCR) systems at AES's petroleum-coke-fired power station. This will be the first SCR installation in the U.S. on a boiler firing 100 percent petroleum coke.
2005						
12/19/05	4Q 2005	Power	Design & Supply	2009	Power	SPRINGFIELD, ILLINOIS, USA: Contract awarded to design and supply a new 200 MW PC-fired steam generator for a new power plant to be built at City Water, Light & Power's Dallman Generating Station. Plant will be equipped with Foster Wheeler's state-of-the-art MBF coal pulverizers, low-NO _x Vortex series burners, complete with an advanced closed-loop measurement and control system for lower NO _x generation, and an integrated selective catalytic reduction system to minimize NO _x emissions from the unit.
12/15/05	4Q 2005	E&C	Detailed Feasibility Study	2006 for study Facility start-up 2009/12	Chemical	WESTERN KAZAKHSTAN: Contract awarded by KazMunaiGas Exploration and Production for a detailed feasibility study for a new petrochemical complex and related facilities to be built in several locations in Western Kazakhstan.
12/8/05	Booking to be made as work orders received	E&C	Three-year term services contract for Engineering & Project Management	2008	Oil & Gas	NIGERIA: Three-year term services contract awarded by Chevron Nigeria Ltd. to Foster Wheeler joint venture. The contract sets the terms for any engineering and project management services Chevron may ask the joint venture to perform for future onshore and offshore projects.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
12/6/05	3Q 2005	E&C	FEED & EPC	2009	Oil & Gas	BINTULU, MALAYSIA: Malaysia LNG Dua Sdn BHD, a PETRONAS subsidiary, awarded Foster Wheeler and a partner, the FEED and EPC phases of a project to debottleneck production capacity at the existing MLNG Dua LNG facility at Bintulu.
12/5/05	3Q 2005	E&C	EPCM	N/S	Environmental	NAPLES, ITALY: Contract awarded by Mercurio S.r.l. for engineering, procurement, subcontract activities and field supervision related to the soil remediation of a decommissioned former tank farm in Naples, Italy.
12/1/05	3Q 2005	E&C	Basis of Design	N/S	Refinery	MOMBASA, KENYA: Contract awarded by Kenya Petroleum Refineries Limited to prepare the basis of design for the proposed upgrade of the Mombasa Refinery. Under the terms of the contract, Foster Wheeler will produce a technical definition and duty specifications for the licensed units, a project execution and a cost estimate for the upgrade.
11/30/05	4Q 2005	E&C	EPCM	N/S	Refining	DUBAI, UAE: EPCM contract awarded by ENOC Processing Company LLC for a major upgrade of ENOC's Jebel Ali gas condensate refinery. The upgrade will include a 70,000 BPSD liquefied petroleum gas/naphtha hydrotreater, a 36,000 BPSD crude catalytic reformer and ancillary processing units, plus associated new or revamped utilities and offsite facilities.
11/29/05	3Q 2005	Power	EPC	2008	Power	SITIA, CRETE: A Foster Wheeler consortium was awarded a contract for engineering, procurement and construction of a 100 MWe heavy-oil-fired power plant by Public Power Corporation, Greece's primary utility.
11/21/05	4Q 2005	E&C	Basic Engineering Design	2008	Chemicals	SINGAPORE: Work begun for Lucite International UK Limited on the basic engineering design associated with a new Methyl Methacrylate manufacturing facility. Lucite stated its intention to extend the basic engineering design phase through to the implementation phase with the appointment of Foster Wheeler as the EPC contractor for the project.
11/18/05	4Q 2005	E&C	Detailed Engineering & Procurement	N/S	Refining	CORPUS CHRISTI, TEXAS, USA: Contract awarded by Flint Hills Resources for detailed engineering and procurement activities for a coke drum replacement project for the existing delayed coker at the West Plant Refining Complex. Foster Wheeler was also involved in the earlier conceptual study, process design and FEED phases of the project.
11/14/05	4Q 2005	E&C	Project Management Contractor	2008	Chemicals	MAP TA PHUT, THAILAND: The Aromatics (Thailand) Public Company Limited selected Foster Wheeler as the Project Management Contractor for the Reformer and Aromatics Complex II Project. The PMC role covers the coordination of the EPC and commissioning phases of the project. The new facilities will produce paraxylene, benzene and toluene.
11/1/05	3Q 2005	E&C	EPCM	2006	Oil & Gas	SASOLBURG, SOUTH AFRICA: Contract awarded by Sasol Technology (Pty) Ltd for the EPCM of a new research and development facility associated with Sasol's Fischer-Tropsch process. The new facility will be integrated into Sasol's existing extensive R&D facility.
10/24/05	3Q 2005	E&C	EPC	2007	Power	PARONA, ITALY: EPC contract awarded for the addition of a second processing line at Lomellina Energia's existing waste-to-energy plant. The contract will include basic design, detailed engineering, materials supply, construction and erection works, and commissioning.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
10/12/05	3Q 2005	Power	Supply	N/S	Power	PORT ARTHUR, TEXAS, USA: Contract awarded by BASF FINA Petrochemicals Limited Partnership for supply of two custom-designed, shop-assembled package boilers. The boilers will each be capable of producing 250,000 pounds per hour of high pressure, high temperature steam and are among the highest pressure and highest temperature package boilers ever supplied by Foster Wheeler.
10/6/05	3Q 2005	Power	Design & Supply	N/S	Power	MINNESOTA, USA: Contract awarded by Laurentian Energy Authority for design and supply of two biomass-fired grate boilers, each capable of producing 135,000 pounds per hour of steam.
10/5/05	3Q 2005	E&C	EPCM	2008	Chemicals	AL-JUBAIL, SAUDI ARABIA: Awarded EPCM contracts for the complete utilities and offsite facilities to support the SHARQ 3rd Expansion Project at Al-Jubail, Saudi Arabia. SHARQ is a 50:50 joint venture between SABIC and SPDC, a Japanese consortium headed by Mitsubishi. This is a major expansion of SHARQ's existing complex. Foster Wheeler is also program management services contractor for the entire expansion project, which included FEED preparation, and preparation and issue of ITBs for EPC contracts. Foster Wheeler is also managing all EPC contractors and providing the overall management, coordination and control of all phases of the expansion program.
9/28/05	3Q 2005	E&C	EPC	2007	Refining	SITRA, BAHRAIN: EPC contract awarded by The Bahrain Petroleum Company B.S.C. (BAPCO) for a refinery gas desulfurization project at BAPCO's refinery. Project includes installation of several new grassroots process plants, including a sulfur recovery unit, a tail gas treating unit, two sour water stripping units, an olefinic gas treatment unit and low flow-off gas streams treatment. Foster Wheeler will also revamp the existing Diethanolamine unit and provide interconnections between other process and utilities units and the new facilities.
9/22/05	3Q 2005	Power	Outage Construction Services	N/S	Power	LAWRENCEBURG, INDIANA, USA: Contract awarded for outage construction services at American Electric Power Company, Inc.'s Tanners Creek Plant. American Electric Power is the largest coal-burning utility in the United States.
9/20/05	3Q 2005	E&C	Project Management Consultancy	2008	Refining	CASABLANCA, MOROCCO: Contract awarded by Societe Anonyme Marocaine de l'Industrie de Raffinage (SAMIR) for the project management consultancy for a major upgrade and expansion of SAMIR's Mohammedia Refinery. The upgrade and expansion program includes new conversion and auxiliary units: a vacuum distillation unit, a hydrocracker, a distillate hydrotreater, a sulfur recovery unit and a hydrogen plant.
8/25/05	1Q 2005	E&C	Process Design Package	2008	Refining	CASTELLÓN, SPAIN: BP Oil Refineria de Castellón, S.A. awarded a contract to supply a process design package for a delayed coking plant based on Foster Wheeler's Selective Yield Delayed Coking Process (SYDEC ^(SM)) for its Castellón Refinery. The project is part of BP's planned reconfiguration of its refinery to reduce residual fuel oil production.
7/29/05	2Q 2005	E&C	Engineering Services	2006	Refining	MANTUA, ITALY: Frame agreement for the provision of engineering services for Italiana Energia Servizi S.p.A., owner of Mantua Refinery. The services include the development of feasibility studies, basic and front-end design, project management and planning, technical assessment and reports, detailed engineering, inspection and expediting, and technical assistance.
7/14/05	3Q 2005	E&C	EPC	2008	Refining	CONCON, CHILE: Contract awarded by Empresa Nacional de Petroleo (ENAP) to a consortium led by Foster Wheeler for the engineering, procurement and construction of a new delayed coker complex at ENAP's Aconcagua refinery. The new facility includes a new 20,000 barrels per stream day delayed

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
						coker, auxiliary units, including sulfur recovery, sour water stripper, amine regeneration, coke handling and wastewater treatment as well as expanded utilities.
7/13/05	1Q 2005	E&C	Basic Design Package	2005 (for Basic Design Package)	Refining	KHABAROVSK, RUSSIA: Contract awarded by OJSC “Oil Company Alliance” to prepare a basic design package for a hydrogen production facility at the Khabarovsk Refinery.
7/13/05	3Q 2005	E&C	PMC	2010	Chemicals	RUWAIS, UAE: Abu Dhabi Polymers Company Limited (Borouge) awarded a PMC services contract for a major expansion of the Borouge petrochemicals facility at Ruwais. The services will include professional project management, project control and engineering services to assist Borouge’s management team in scope definition, FEED, contracting, scheduling, and environmental impact assessment up to award of EPC contracts with an option for services during the EPC phase.
7/8/05	2Q 2005	E&C	Engineering Services & Equipment Supply	2007	Refining	BELARUS: Contract awarded by JSC Mozyr Oil Refinery for engineering services and supply of critical equipment. Foster Wheeler will provide basic design for a grassroots hydrogen production unit based on steam methane reforming hydrogen production technology, and will supply the materials for the steam reformer using Foster Wheeler’s proprietary TERRACE-WALL™ technology. Technical assistance services during the construction, commissioning and start-up of this hydrogen unit will also be provided.
7/6/05	2Q 2005	Power	Construction	N/S	Power	NEW HAVEN, WEST VIRGINIA, USA: Contract for construction of a flue gas desulfurization unit was awarded by American Electric Power Company, Inc. for its Mountaineer Plant.
7/6/05	2Q 2005	E&C	EPCM	2005	Chemicals	PRIOLO, ITALY: Contract awarded by Polimeri Europa S.p.A. for the execution of an environmental protection project at the Priolo petrochemical complex.
7/5/05	2Q 2005	E&C	FEED, Project Management Services	2009	Oil & Gas	KHURAI, SAUDI ARABIA: Contract awarded by Saudi Aramco for FEED and project management services for Khurais full-field development. Scope of the contract includes a grassroots central processing facility at Khurais, upgrade of support facilities at the Ju’aymah gas plant, inter-field pipelines, utilities and product handling/storage/ infrastructure and support facilities; validation of the work undertaken to date and overall project management and engineering services for the central processing facility, including certain procurement and construction management services.
6/29/05	1Q 2005	E&C	Process Design	2005	Refining	PANCEVO, SERBIA: Contract awarded by NIS—Naftagas Promet for the process design package for a new hydrogen production unit to be built at the Pancevo refinery.
6/23/05	2Q 2005	E&C	Environmental Consultancy	2005 & 2007	Environmental	PRIOLO AND ASSEMINI, ITALY: Syndial S.p.A. awarded two contracts for environmental consultancy services at two sites of national interest.
6/22/05	2Q 2005	E&C	Process Design	2007	Environmental	AL-KHAFJI, SAUDI ARABIA: Contract awarded by SETE Technical Services S.A. to provide process design services in conjunction with the installation of a new seawater desalination unit at the Khafji Joint Operations Plant.
6/10/05	2Q 2005	E&C	EPCM	2008	Oil & Gas	KARRATHA, AUSTRALIA: Foster Wheeler-led JV awarded an EPCM contract by Woodside Energy Ltd. (Operator) on behalf of the North West Shelf Venture for the Phase V LNG expansion

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
						project, which involves the addition of a fifth LNG processing train with a production capacity of 4.2 million metric tonnes a year to the existing 11.7 mtpa LNG complex. The expansion project also includes an additional fractionation unit, acid gas recovery unit, boil-off gas compressor, two new gas turbine power generation units, a second loading berth and a new fuel gas system compressor.
6/8/05	2Q 2005	E&C	Project Management Services	2007	Oil & Gas	DAHEJ, GUJARAT, INDIA: Contract awarded by the Oil and Natural Gas Corporation (ONGC) for project management services for a grassroots facility associated with the removal of ethane, propane and butane from LNG. The scope of work will include project management, quality assurance, evaluation of technical bids for the EPC phase, review of process design, review of basic and detailed design, and provision of site supervision services as required during EPC execution and commissioning.
6/2/05	2Q 2005	Power	Supply	2008	Power	WYOMING, USA: Bechtel Power Corporation selected Foster Wheeler to supply a nominal 2,000,000 pounds per hour PC-fired boiler for the Two Elk Generating Facility.
5/23/05	1Q 2005	Power	Supply	2006	Power	VIANA DO CASTELO, PORTUGAL: Contract awarded by Portucel Viana Energia for the supply of a biomass-fired BFB boiler. Foster Wheeler will supply the 42.5 ton/h boiler, together with ancillary equipment, and manage erection and start-up.
5/16/05	2Q 2005	Power	Supply	2006	Power	HYLTEBRUK, SWEDEN: Contract awarded by Stora Enso Hylte AB for the supply of a biomass-fired BFB retrofit.
5/11/05	2Q 2005	E&C	Design verification	N/S	Oil & Gas	BIGHT OF BENIN, NIGERIA: Contract awarded by Hyundai Heavy Industries Co., Ltd. to perform design verification activities for the Escravos Gas Project Phase 3A Onshore Project.
5/9/05	1Q 2005	E&C	PMC	2008	Oil & Gas	ABU DHABI, UAE: Foster Wheeler awarded a PMC contract by Abu Dhabi Gas Industries Ltd. (GASCO) for the engineering, procurement and construction phase of the third Natural Gas Liquids (NGL) train project at Ruwais.
5/3/05	1Q 2005	E&C	Study	N/S	Refining	GOTHENBURG AND LYSEKIL, SWEDEN: Foster Wheeler awarded a study contract by Preem Petroleum AB for fuel oil upgrading at its Gothenburg and Lysekil refineries. The study will consider a wide range of operations for fuel and residue upgrading and select the most economic schemes for further evaluation in the next phase and will determine the feedstocks to be used and the unit capacities for fuel oil upgrading facilities.
4/11/05	1Q 2005	E&C	Feasibility Study	2005	Oil & Gas	NINGZIA AUTONOMOUS REGION AND SHANXI PROVINCE, PRC: Foster Wheeler joint venture awarded a feasibility study Stage I contract by Sasol Synfuels International (Proprietary) Limited and its Chinese partners, to evaluate the available technologies for two planned 80,000 barrels per day coal-to-liquids facilities and to integrate these technologies with the associated utilities and infrastructure systems in order to maximize the value of the project to its shareholders.
4/5/05	1Q 2005	E&C	Project Engineering Services	2007	Chemical	AL-JUBAIL INDUSTRIAL CITY, KINGDOM OF SAUDI ARABIA: Foster Wheeler awarded project engineering services (PES) contract by Jubail Chemical Industries company (JANA) for its epichlorhydrin and chlor-alkali project (Project HASSAD). Foster Wheeler's role as PES contractor covers the co-ordination of the EPC phases of the project.

Date Announced	Quarter Booked	Business Group	Contract Type	Projected Completion Date	Industry Served	Description
3/23/05	1Q 2005	E&C	Design, Engineer, Construct & Commission	2007	Power	TEESSIDE, NORTHEAST ENGLAND: Foster Wheeler awarded contract by SembCorp Utilities UK Limited to design, engineer, construct and commission the complete boiler island, including the flue gas treatment system. The project, known as “Wilton 10,” is one of the UK’s largest biomass renewable energy projects and uses a Foster Wheeler BFB boiler.
3/7/05	N/S	E&C	EPCM	2008	Oil & Gas	KARRATHA, WESTERN AUSTRALIA: Foster Wheeler received a letter of intent from Woodside Energy Ltd. for the EPCM contract for the proposed LNG Phase V project.
2/22/05	4Q 2004	E&C	Supply & Construction	2006	Refining	MAZEIKIAI, LITHUANIA: Foster Wheeler awarded a contract for the supply and construction of a new fluid catalytic cracker gasoline selective hydrotreater unit at AB Mazeikiu Nafta’s Mazeikiai Refinery.
2/8/05	4Q 2004	E&C	Study	2005	Oil & Gas	UST-LUGA, GULF OF FINLAND: Foster Wheeler awarded a concept selection study contract by TNK-BP for an oil and oil products import and export facility, including a marine facility, tankage and rail unloading terminal.
2/7/05	4Q 2004	Power	Design & Supply	2007	Power	BENSON, MINNESOTA, USA: Foster Wheeler awarded a contract by SNC-Lavalin Power Inc. to design and supply a 55 MW boiler for Fibrominn LLC’s landmark green energy project. This will be the first U.S. power plant to use poultry litter as its primary fuel.
1/31/05	3Q 2004	E&C	PMC	2007	Oil & Gas	ABU DHABI, UAE: Foster Wheeler awarded a project management consultancy contract by Abu Dhabi Gas Industries Ltd (GASCO) for the EPC phase of the world-scale Onshore Gas Development Project (ODG-III) to increase production of condensate and natural gas liquids (NGLs). Foster Wheeler was also PMC contractor for the FEED and EPC ITB phases.
1/10/05	4Q 2004	E&C	EPCM services	N/S	Other	NEW CALEDONIA: Foster Wheeler/SNC-Lavalin JV awarded a contract to provide engineering, procurement and construction services for Goro Nickel’s nickel-cobalt project.

Safe Harbor Statement

Foster Wheeler AG news releases may contain forward-looking statements that are based on management’s assumptions, expectations and projections about the Company and the various industries within which the Company operates. These include statements regarding the Company’s expectations about revenues (including as expressed by its backlog), its liquidity, the outcome of litigation and legal proceedings and recoveries from customers for claims and the costs of current and future asbestos claims and the amount and timing of related insurance recoveries. Such forward-looking statements by their nature involve a degree of risk and uncertainty. The Company cautions that a variety of factors, including but not limited to the factors described in the Company’s most recent Annual Report on Form 10-K, which was filed with the U.S. Securities and Exchange Commission and the following, could cause the Company’s business conditions and results to differ materially from what is contained in forward-looking statements: benefits, effects or results of the Company’s redomestication or the relocation of our principal executive offices to Geneva, Switzerland; the benefits, effects or results of our strategic renewal initiative; further deterioration in global economic conditions, changes in investment by the oil and gas, oil refining, chemical/petrochemical and power generation industries, changes in the financial condition of its customers, changes in regulatory environments, changes in project design or schedules, contract cancellations, changes in estimates made by the Company of costs to complete projects, changes in trade, monetary and fiscal policies worldwide, compliance with laws and regulations relating to its global

operations, currency fluctuations, war and/or terrorist attacks on facilities either owned by the Company or where equipment or services are or may be provided by the Company, interruptions to shipping lanes or other methods of transit, outcomes of pending and future litigation, including litigation regarding the Company's liability for damages and insurance coverage for asbestos exposure, protection and validity of its patents and other intellectual property rights, increasing global competition, compliance with its debt covenants, recoverability of claims against its customers and others by the Company and claims by third parties against the Company, and changes in estimates used in its critical accounting policies. Other factors and assumptions not identified above were also involved in the formation of these forward-looking statements and the failure of such other assumptions to be realized, as well as other factors, may also cause actual results to differ materially from those projected. Most of these factors are difficult to predict accurately and are generally beyond the Company's control. You should consider the areas of risk described above in connection with any forward-looking statements that may be made by the Company. The Company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any additional disclosures the Company makes in proxy statements, quarterly reports on Form 10-Q, annual reports on Form 10-K and current reports on Form 8-K filed with the Securities and Exchange Commission.
